A. Stradling, 2002-10-03 This book concentrates on the political history of the reign of Philip IV and the role of the king within it Philip is kept near the

forefront and issues and events are often seen if sometimes critically from his viewpoint It is therefore a work of revision and rehabilitation representing an attempt against all other extant accounts to establish Philip IV as a positive figure with an autonomous character and political identity A secondary supportive intention is to demonstrate that after the fall of Olivares the king ruled and governed without a favourite valido This is the central theme in the most detailed treatment of the second half of the reign available in any language Reference is made throughout to Philip s own words and actions At the same time the Olivares period itself is approached from a new perspective some issues being examined with the use of new material Although not intended as a conventional biography the book retains several characteristics of the form in that it is a career study part thematic part chronological Philip IV is examined also in relation to the political writing of the age and to his court and capital in Madrid
