Archicentre Cost Guide

Market Summary Overview

A 'perfect storm' of low interest rates, competitive pricing and growing consumer confidence makes 2013 a great time to renovate or build a new home.

Interest rates are at historic lows and can be fixed to provide certainty around repayments for years to come. At the same time, sluggish domestic and small commercial construction sectors have resulted in builders and tradespeople pricing projects more and more keenly to keep active. Finally, consumer sentiment has improved steadily for the past 12 months suggesting that activity levels will start to pick up in the renovation and new home markets as confidence builds.

If you've been thinking about a home improvement project, a renovation, a new home or a small property development now might be the time to do it!

Call Archicentre on 1300 134 513 if you need a costed Design Concept or construction Quality Assurance inspections and visit our weekly blog (<http://www.archicentre.com.au/blog/blog>) for handy home design hints and tips.

Good luck with your project!
