Riley,2011-09-01 Domestic policy issues are neglected by the president only at considerable risk since policies in health care education welfare the environment and civil rights deeply affect the lives of ordinary Americans This groundbreaking book on White House domestic policymaking is the first to draw upon both the experiences of former presidential advisers and the expertise of leading presidency scholars to explain how policies reflect campaign promises emerge and evolve and are sold to the American people Covering six administrations from Richard Nixon through George W Bush with ample references to Barack Obama it interweaves those insider and outsider perspectives to convey an eye opening understanding of the policymaking process and the factors that influence it The contributors here offer an unusual balance of practical wisdom and social science knowledge Their insights address a number of key questions throughout the book What role does the presidential campaign have in shaping the subsequent activity of the White House How are the specifics of domestic policy and priorities established once a president is elected Who and what is routinely involved in trying to sell domestic policy preferences to the American people And what lessons can be learned from past successes and failures to enhance the ability of future presidents to succeed If there is a single overarching lesson to be drawn from this volume observes contributor Bruce Miroff it might be the following domestic policymaking is hard These policy advisers know firsthand just how hard it is and the lack of partisanship in their comments is striking and reassuring Their accounts of lessons learned from the Oval Office will be especially valuable for years to come for scholars and students who wish to be acquainted with the real job of governing at home **Public Papers of the Presidents of the United States** United States.
