Australia A New History Of The Great Southern Land:

Great Southern Land Frank Welsh, 2005 Frank Welsh's new history of Australia is the first to be written by a non-Australian and the first to be based on archival research not only in Australia but in Britain the USA Canada and South Africa

Australia Frank Welsh, 2006 Australia A New History of the Great Southern Land is a major new account that places Australia's history fully within a global context drawing on sources from the United States Britain South Africa and Canada as well as within Australia itself In a compelling narrative acclaimed historian Frank Welsh traces the history of the land from scattered convict settlements to the formation of the Commonwealth of Australia in 1901 and on to today's thriving independent nation exposing many national myths in the process This book also explores the dark side of Australia's history the long continued White Australia policy which bedeviled foreign policy for more than a century the still tortured official relationship with the Aboriginal peoples the subordination of women and the flaws in the constitution Also examined is Australia's uneasy relationship with its Asian neighbors and its isolation from Britain and the United States its traditional allies

BOOK JACKET *International Perspectives on Racial and Ethnic Mixedness and Mixing* Rosalind Edwards, Suki Ali, Chamion Caballero, Miri Song, 2012-06-14 People from a mixed or inter racial and ethnic background and people partnering and parenting across different racial and ethnic backgrounds are of increasing political public and intellectual interest internationally Contributors to this interdisciplinary collection interrogate notions of mixedness and mixing and challenge stereotypical assumptions They advance debates in the field through illuminating the complexity of specific historical trajectories administrative practices and lived experience Recurrent themes woven throughout the chapters include boundaries and categorisation in terms of administration and government and also of lived experience the explicit and implicit politics of mixedness and mixing in terms of nation state interests agenda and policies as well as on the ground social relations the ways that mixedness and mixing shift in meaning and implications across time and place shaped by different national regional and or local contexts This volume shows that who is and is not mixed is contested and understandings of mixedness and mixing however conceived need to be situated in the larger complex of ideas about race and its classification *International Perspectives on Racial and Ethnic Mixedness and Mixing* is an invaluable book for students and scholars of race and ethnicity

The Burden of White Supremacy David C. Atkinson, 2016-10-25 From 1896 to 1924 motivated by fears of an irresistible wave of Asian migration and the possibility that whites might be ousted from their position of global domination British colonists and white Americans instituted stringent legislative controls on Chinese Japanese and South Asian immigration Historians of these efforts typically stress similarity and collaboration between these movements but in this compelling study David C Atkinson highlights the differences in these campaigns and argues that the main factor unifying these otherwise distinctive drives was the constant tensions they caused Drawing on documentary evidence from the United States Great Britain Australia Canada South Africa and New Zealand Atkinson traces how these

exclusionary regimes drew inspiration from similar racial economic and strategic anxieties but nevertheless developed idiosyncratically in the first decades of the twentieth century Arguing that the so called white man s burden was often white supremacy itself Atkinson demonstrates how the tenets of absolute exclusion meant to foster white racial political and economic supremacy only inflamed dangerous tensions that threatened to undermine the British Empire American foreign relations and the new framework of international cooperation that followed the First World War

Crossing Textual Boundaries in International Children's Literature Lance Weldy,2011-01-18 As the first part of the title indicates my interest in looking at intertextuality and transformation still maintains a prominent place throughout this book as well If we believe that no text is an island then we will understand that the relationships between and within texts across the years become a fascinating place for academic inquiry I included the word boundaries into the title because we never get tired of voicing our opinions about texts which traverse relegated boundaries such as genre or medium Not only am I interested in discussing what these changes across boundaries mean socially historically and culturally but also what they mean geographically which accounts for the second part of my title I am very excited that this book will be placing even more emphasis on children s literature in an international scene than my first book did in the sense that I have added more scholars on an international level I hesitate to list the nationalities of all of the contributors here because quite a few have themselves crossed international boundaries in different ways by either studying abroad or finding permanent residency in foreign countries Nevertheless the writers have lived extensively in or identify as being from Australia Canada England Finland Germany Greece Iceland Ireland Israel Norway Spain Sweden Turkey the United States of America and Wales
