Television Network Daytime and Late-Night Programming, 1959-1989 Mitchell E. Shapiro, 1990-01-01 When did Queen for a Day air? How long did the soap opera The Edge of Night run? This reference work is a valuable companion to the author's two previous volumes Television Network Prime Time Programming 1989 and 2009 covering 1948 to 2007 and Weekend Programming 1950-1990. Beginning with September 1959 and continuing to the fall of 1989, this work provides month by month early morning Monday-Friday 7-9 a.m. daytime Monday-Friday 10-6 and late night Monday-Friday 11-2 a.m. schedules for four national broadcasting networks: ABC, CBS, NBC, and Fox. Also included are a detailed listing of all network programming moves including series premieres, cancellations, and time slot moves, and a yearly recap of key programming moves.

Let's Fix It! Richard J. Schonberger, 2001-12-06 No company is built to last, argues world-renowned manufacturing guru Richard J. Schonberger. In this devastating indictment of current manufacturing practices, Schonberger submits a four-part revolutionary plan to solve the manufacturing crisis for good. From his statistically reliable database of 500 top global manufacturers, Schonberger finds that by the critical worldwide standard of lean production—shedding inventories, General Motors, General Electric, Toyota, and other world leaders have stopped improving. He presents powerful evidence that in recent years, record profits have covered up waste and weakness. Clearly, a lack of will to renew and recover from the natural tendency toward regression and erosion is more than a matter of garden variety complacency; devastating as that is, in this new era of global hypercompetition, Schonberger asserts that the inclination of industry leaders to engage in stock-hyping to gain a quick fix from the dot-com explosion has distracted attention from the basics of world-class excellence. Among other villains contributing to the crisis, Schonberger contends are newly hired managers with no trial-by-fire experience, bad equipment, systems, and job design, and retention of unprofitable customers and anachronistic command-and-control managerial hierarchies. What to do? Just as he introduced the legendary just-in-time framework to the West in the 1980s, Schonberger prescribes strong medicine to cure our current malaise. Find your blind spots, he says. Roll confusing time-sapping initiatives into a master program that is immune from the flavor of the month. Put lean into heavy-handed control systems. Develop products and standardize processes at home base for ease of migrating volume production anywhere in the world.
