The Afterlife of al-Andalus Christina Civantos, 2017-11-21. The first study to undertake a wide ranging comparison of invocations of al Andalus across the Arab and Hispanic worlds. Around the globe concerns about interfaith relations have led to efforts to find earlier models in Muslim Iberia al Andalus. This book examines how Muslim Iberia operates as an icon or symbol of identity in twentieth and twenty first century narrative drama television and film from the Arab world Spain and Argentina. Christina Civantos demonstrates how cultural agents in the present ascribe importance to the past and how dominant accounts of this importance are contested. Civantos's analysis reveals that alongside established narratives that use al Andalus to create exclusionary imperial identities there are alternate discourses about the legacy of al Andalus that rewrite the traditional narratives. In the process these discourses critique their imperial and gendered dimensions and pursue intercultural translation.

The Muslim Speaks Khurram Hussain, 2020-10-29. The Muslim Speaks reimagine Islam as a strategy for investigating the modern condition. Rather than imagining it as an issue external to a discrete West, Khurram Hussain constructs Islam as internal to the elaboration and expansion of the West. In doing so he reveals three discursive traps that of freedom reason and culture that inhibit the availability of Islam as a feasible critical interlocutor in Western deliberations about moral intellectual and political concerns. Through close examination of this inhibition Hussain posits that while Islamophobia is clearly a moral wrong depoliticization more accurately describes the problems associated with the lived experience of Muslims in the West and elsewhere. Weaving together his conclusions in the hope of a common world, Khurram Hussain boldly and quite radically deems that what Islam needs is not depoliticization but infact

repoliticization **Women and the Reformations** Merry E Wiesner-Hanks, 2024-10-29 A compelling authoritative history of how women shaped the Reformations and transformed religious life across the globe The Reformations both Protestant and Catholic have long been told as stories of men But women were central to the transformations that took place in Europe and beyond What was life like for them in this turbulent period How did their actions and ideas shape Christianity and influence societies around the world In this rich and definitive study renowned scholar Merry Wiesner Hanks explores the history of women and the Reformations in full for the first time Wiesner Hanks travels the globe examining well known figures like Teresa of Avila Elizabeth I and Anne Hutchinson as well as women whose stories are only now emerging Along the way we meet converts in Japan Spanish nuns in the Philippines and saints in Ethiopia and America Wiesner Hanks explores women s experiences as monarchs mothers migrants martyrs mystics and missionaries revealing that the story of the Reformations is no longer simply European and that women played a vital role **Western Muslims and Conflicts Abroad** Juris Pupcenoks, 2015-12-07 This book explains why reactive conflict spillovers political violence in response to conflicts abroad occur in some migrant background communities in the West Based on survey data statistical datasets more than sixty interviews with Muslim community leaders and activists ethnographic research in London and Detroit and open source data this book develops a theoretical explanation for how both differences in government policies and features of migrant background communities interact to influence the nature of foreign policy focused activism in migrant communities Utilizing rigorous mixed methods case study analysis the author comparatively analyses the reactions of the Pakistani community in London and the Arab Muslim community in Detroit to the wars in Afghanistan and Iraq during the decade following 9 11 Both communities are politically mobilized and active However while London has experienced reactive conflict spillover Detroit has remained largely peaceful The key findings show that with regards to activism in response to foreign policy events Western Muslim communities primarily politically mobilize on the basis of their ethnic divisions Nevertheless one notable exception is the Arab Israeli conflict which is viewed through the Islamic lenses and the common Islamic identity is important in driving mobilization domestically in response to Islamophobia and counterterrorism policies and practices perceived to be discriminatory Certain organizational arrangements involving minority community leaders law enforcement and government officials help to effectively contain excitable youth who may otherwise engage in deviant behavior Overall the following factors contribute to the creation of an environment where reactive conflict spillover is more likely to occur policies allowing immigration of violent radicals poor economic integration without extensive civil society inter group ties the presence of radical groups and connections with radical networks abroad
