Women in Health Management Robert McMurray,Éidín Ní Shé,2025-09-23 Writings on health and health management have long been concerned with the great figures that have preserved protected or extended life From Hippocrates and Galen to Vesalius Lister Mengele Pasteur Jenner and Fleming these writings have celebrated individuals whose knowledge and practice has treated our ills and sought to better manage our care For the most part this has been a history of great men sic There are honourable mentions for a small number of women such as Elizabeth Blackwell or Florence Nightingale but by and large one would be forgiven for assuming that the management of health has nearly always been the preserve of men The contribution of women is largely absent written out This book contributes to the process of writing women back into our shared history and understanding of health and its management Its chapters detail how women have been the main healers for communities across the globe for over four millennia It considers the manner in which wise women who used their knowledge of herbs

ritual and healing were excluded from emerging medical professions while their good works were written over and written out of local histories through their marginalisation and repositioning More positively it brings to our attention inspiring women who have shaped the ways in which we develop and deliver health in its broadest sense Drawing on the work of women from Kenya Nigeria Hawaii T rkiye USA Ireland and the UK and from disciplines that span medicine social work mental health health promotion occupational therapy midwifery pharmacology and traditional healing the women considered in this volume advance our understanding of alternative ways of developing delivering and managing health This includes organising services for areas of neglected health e g women s health health prevention rural populations tackling contentious health issues e g female genital mutilation management of mental disorders and the care of health providers themselves e g providing space for women to practice managing the mental well being of healthcare workers This book also shows how the work of these women went beyond health management to influence political and societal change Blue Ice Marlene Maxwell,2007-09 Blue Ice is not an attempt to be catchy or complicated These are just words that give away emotion and substance to the expressions that fall all around thin ice They are just words that apply to what I write about most relationships of the intimate kind often those not considerate of our welfare or worth I have wrestled an almost innate need to rescue and fix people obeying false commandments and paying penance to procure my own good and believe I deserve it What makes it too daring to save ourselves before extending an arm through shards of blue ice clutching a hand held offering still beating I do not want you to think this is a dark book shrilling prophetic doom in contorted faces It is about rising up on the power of our own self worth It is about being anchored by the shouts from lamp lit watch towers old draw bridges and warmed stick built shacks everywhere If there is obscurity in my poems and stories it s so you may see yourself in a few words a phrase or sentence and chisel or sculpt what you need to find in one spring fed pocket of air that you are not alone it is in the wrestling with cold swirling waters that we find our bliss sustain it breath by breath and round by round Am I on thin ice Maybe but I can see blue a safe distance away Just words *Lead Yourself to Success* Alan Chambers,2019-01-04 Let your lifelong adventure begin today Lead Yourself to Success is your personal guidebook to greatness Alan Chambers has led many expeditions to the North and South poles but you don t have to lead a national team or a multinational corporation to be successful as long as you can lead yourself The desire to learn is human nature and lessons from those who have been where you want to go are extraordinary opportunities You gain the insight and guidance you need to get there and learn how to lead your own expedition down the path to success Like any adventure good preparation is key You don t take off for the North pole on a whim and you don t just leap into leadership without understanding the responsibilities it entails This book shows you how to develop the leadership mindset to get wherever you want to go in life trust your own judgement and come out on top of the world Uncover your inner leadership potential Learn how others succeed Find the adventure in everyday life Lead yourself on an expedition to greatness Alan helps thousands of people every year unlock the door to higher performance
