Western European Museums and Visual Persuasion J. Donald Ragsdale, 2020-07-13 Western European Museums and Visual Persuasion is an assessment of the visual persuasiveness of art museums It demonstrates that museums are as capable of influence as speeches or advertisements are and that an awareness of this influence provides an insight into museums cultural roles The book considers a diverse array of institutions ranging from such national cultural icons as the Louvre the British Museum and the Prado to museums of partisan advocacy such as the Centre Georges Pompidou the Tate Modern and the Museo Nacional Centro Arte de Reina Sofia The museums architectural significance the importance of their collections and the persuasiveness of their exhibition designs are the bases for assessment Western European Museums and Visual Persuasion is an important extension of theories of persuasion and visual communication to art art history and museology It utilizes a theory of visual signs based on the semiotics of C S Peirce to demonstrate that museum buildings the art within them and the spaces used for display all may be thought as ways of influencing society
