under various kinds of street and how they felt about their Spanish overlords In examining the character of village uprisings typical relationships between killers and the people they killed and the drinking patterns of the late colonial period the author finds no warrant for the familiar picture of sullen depredation and despair Landed peasants of colonial Mexico drank moderately on the whole and mostly on ritual occasions they killed for personal and not political reasons Only when new Spanish encroachments threatened their lands and livelihoods did their grievances flare up in rebellion and these occasions were numerous but brief The author bolsters his conclusions with illuminating comparisons with other peasant societies
