Arab Media In The Information Age:

Arab Media in the Information Age The Emirates Center for Strategic Studies and Research, 2006-01-02 The Arab media has been able to effect a qualitative and quantitative improvement in the past few years Today it is disseminating more information to a wider and growing audience In fact it has not only made its presence felt on the world stage but has even been able to influence the course of international events This change has largely been brought about by Arab satellite news channels Arab websites and international Arabic newspapers In spite of these achievements the Arab media still suffers from several structural shortcomings which it needs to immediately address and overcome The book contributes towards promoting the cause of the Arab media enrich its expertise and chart its future course It seeks to diagnose the ills facing the Arab media assess its orientation content and performance study its social responsibilities and functions evaluate the extent of its influence on Arab public opinion and its role in presenting Western views to the Arab world The book also studies the experiences of the new Arab satellite channels In addition the book delves into certain contentious issues such as the independence and credibility of the media and the relationship of the press with commercial interests and political influence It also covers a comparative study of the Western and Arab media and examines the role of the press in times of war besides focusing on the growing role of the Internet in the Arab world The book draws on the expertise and insight of a distinguished group of contributors which consist of eminent media professionals prominent researchers and academicians from the Arab world and beyond

Arab Media in the Information Age ECSSR, 2006-09-08 A collection of conference papers analyzing the Arab media's influence in shaping Arab public opinion and Western perspectives of the Arab world

Arab Media Noha Mellor, Khalil Rinnawi, Nabil Dajani, Muhammad I. Ayish, 2013-05-20 This book provides a clear and authoritative introduction to the emerging Arab media industries in the context of globalization and its impacts with a focus on publishing press broadcasting cinema and new media Through detailed discussions of the regulation and economics of these industries the authors argue that the political technological and cultural changes on the global media scene have resulted in the reorganization of the Arab media field They provide striking examples of this through the particular effects on media policies media technology and the content and genres developed for the new generation of media consumers As part of the book's overview of the contemporary characteristics of Arab media the authors outline the development of the role of modern Arab media from a tool of mobilizing the public to a tool of commercial and symbolic profit Overall the volume illustrates how the Arab region represents a unique case where the commercialization and liberalization of selected media industries has gone hand in hand with continuous state intervention and an increasing self censorship Written for students without prior knowledge of the topic Arab Media will be essential reading for all interested in the contemporary global media industries

Music and Media in the Arab World Michael Frishkopf, 2010-09-01 Since the turn of the twentieth century the dramatic rise of mass media has profoundly transformed music practices in the Arab world Music has adapted to successive forms of

media dissemination from phonograph cylinders to MP3 each subjected to the political and economic forces of its particular era and region Carried by mass media the broader culture of Arab music has been thoroughly transformed as well Simultaneously mass mediated music has become a powerful social force While parallel processes have unfolded worldwide their implications in the Arabic speaking world have thus far received little scholarly attention This provocative volume features sixteen new essays examining these issues especially televised music and the controversial new genre of the music video Perceptive voices both emerging and established represent a wide variety of academic disciplines Incisive essays by Egyptian critics display the textures of public Arabic discourse to an English readership Authors address the key issues of contemporary Arab society gender and sexuality Islam class economy power and nation as refracted through the culture of mediated music Interconnected by a web of recurrent concepts this collection transcends music to become an important resource for the study of contemporary Arab society and culture Contributors Wael Abdel Fattah Yasser Abdel Latif Moataz Abdel Aziz Tamim Al Barghouti Mounir Al Wassimi Walter Armbrust Elisabeth Cestor Hani Darwish Walid El Khachab Abdel Wahab Elmessiri James Grippo Patricia Kubala Katherine Meizel Zein Nassar Ibrahim Saleh Laith Ulaby

Arab Media Moguls Naomi Sakr, Jakob Skovgaard-Petersen, Donatella Della Ratta, 2015-03-31 Transformations in the Arab media landscape are a key element in regional dynamics of political change Where do private owners of Arab media outlets stand on the scene What part if any have they played in weakening dictatorships countering sectarianism and political polarisation and reforming business practices in the Arab world Arab Media Moguls charts the fortunes of some leading media investors and entrepreneurs from Egypt Lebanon Saudi Arabia and Tunisia to examine their motives management styles financial performance and links to political power The resulting profiles offer intriguing insights into the place of family education religion and media regulation in regional power structures Globally the rise of small digital media increased competition law and the precedence of more digitally savvy younger generations have fuelled doubts as to whether the archetypal media mogul is a phenomenon with a future How do such factors affect power plays in Arab media Responding critically to existing Western scholarship and commentary on magnates in US and European media this book explores how far existing assumptions and perceptions about powerful media owners eccentricity innovation and risk taking apply in the Arab context and offers a range of alternative approaches to understanding the central position of certain individuals in the fast changing Arab media business

Reporting in the MENA Region Mohammad Ayish, Noha Mellor, 2015-10-22 In this consideration of media practice in the Arab region Mohammad Ayish and Noha Mellor explore the changing status and function of journalists and journalism given the new realities of reporting in the digital age The authors draw on focus group discussions interviews and social media traffic surveys to examine how social and new media have been integrated into Arab and pan Arab newsroom operations and harnessed to enhance engagement with an empowered audience Efforts to engage with audiences in social space Ayish and Mellor argue are part of a broad and long waged information war aimed at winning hearts and

minds in the MENA region Social platforms present excellent opportunities to engage with audiences but the extent to which such opportunities can be realized are hamstrung by limits on free expression and online access and vary significantly from country to country and from media channel to media channel Overall Reporting in the MENA Region paints a comprehensive and contemporary picture of how today's Arab journalists perceive and use digital media *Handbook of Research on Political Activism in the Information Age* Solo, Ashu M. G., 2014-05-31 Technology and particularly the Internet has caused many changes in the realm of politics Mainstream media no longer has a monopoly on political commentary as social media blogs and user generated video streaming sites have emerged as an outlet for citizens and political activists to openly voice their opinions organize political demonstrations and network online The Handbook of Research on Political Activism in the Information Age includes progressive research from more than 39 international experts at universities and research institutions across 15 different countries Each of the 25 scholarly chapter contributions focus on topics pertaining to the application of information technology engineering and mathematics to political activism Through its analysis of the methods for political activism in the information age the effectiveness of these methods as well as emerging analytical tools this book is designed for use by researchers activists political scientists engineers computer scientists journalists professors students and professionals working in the fields of politics e government media and communications and Internet marketing

Explorations in Global Media Ethics Muhammad Ayish, Shakuntala Rao, 2013-09-13 Studies of global media and journalism have repeatedly returned to discussions of ethics This book highlights the difficulty that journalists encounter when establishing appropriate ethical practices and marks the pressing importance of global media ethics as a subject of current debate A wide range of contributors both scholars and practitioners of journalism identify how changes in journalism practice developments in new media technologies legal regulations and shifting patterns of ownership all play a role in creating ethical tensions for journalists with some chapters in the book suggesting practical solutions to this pertinent issue The growing need to faithfully represent other diverse cultural groups is also considered with certain chapters discussing the impact that human rights freedom and justice have upon journalistic decision making Explorations in Global Media Ethics recognises that with the escalation of globalisation and a public striving for honest quality media journalists around the world face an increasing pressure to comply with and simultaneously satisfy diverse ethical practices at both a local and a more global level The book sympathises with the position of the journalist and calls for greater consideration of his ambiguous role This book was originally published as a special issue of Journalism Studies *From Tribe to Facebook The Transformational Role of Social Networks* Prof. Jamal Sanad Al-Suwaidi, 2013-01-01 The recent proliferation of social networks has led to a societal shift from a tribal mentality to that of Facebook and has served to connect people from around the world with common cultural religious political and economic characteristics in an unprecedented manner and with astonishing speed When such vast numbers of individuals congregate via social networks societies that were once imaginary become real the

virtual worlds they inhabit expand and instill in their citizens a shared desire to establish and enforce their common interests This study charts the impact of this phenomenon in order to explore and analyze the potential outcomes of the accelerated development of social networks Their economic potential in general is discussed as are their implications for the future of traditional media forms both as sources of news and key platforms for shaping public opinion It also explores the use of social networks by terrorists and organized criminal gangs a trend which has not only led to the development of new forms of criminal activity but also to the globalization of crime and examines the potential for new forms of virtual conflict to arise with the Internet as the battlefield social networks as the weapons and states and citizens as the combatants In the area of domestic security the study proposes that defense and intelligence agencies will depend on social networks to wage and defend against various forms of information warfare as well as to monitor the movements and communications of individuals under surveillance A major focus of the study is the growing ability of protestors and advocates of political change in countries with repressive regimes to create significant virtual political pressure through social networks obtaining and disseminating information without censorship in a new information democracy It is this role of social networks in the political and social make up of nations that defines the importance of this study particularly in view of the fact that social networks have recently become a vital variable in socio economic mobility across the globe and in the Arab world in particular
