Iran Walid Phares, 2023-01-10 Since 1979 the Khomeinist regime has oppressed its own population while waging wars and terrorism against Arabs Israel Middle East minorities and the United States It expanded its military power across the region and created an international terror web American policy toward Tehran since Carter culminated under Obama in offering the Islamic Republic a deal of partnership empowering the Ayatollahs even further The Iranian people rose several times against the regime without significant support from the US or the West Civil societies protested strongly against Iran backed militias in Iraq Syria Lebanon and Yemen but were likewise abandoned Instead US administrations and Congress were enticed into accepting the regime's legitimacy despite its rogue behavior and its relentless drive to obtain nuclear weapons and develop ballistic missiles This book tells the story of the regime from the genesis of its terror to the legitimizing of its aggressive goals It is about how America failed to stop the threat and how Americans can finally win that challenge once and for all

Communalism from Indian Perspective Sarajit Kumar Chatterjee, 2016-01-01 A pluralistic country like India has become the playground of communalism In spite of its vivisection on the basis of religion in 1947 India could not rather did not insulate itself from the

virus of communalism There are many reasons for the growth and sustenance of communalism in free secular India Perhaps our Constitution is no less responsible for this The Framers of the Constitution might have wanted to usher in a true secular India but their obsession with communalism stood in the way They weighed everything from a communal angle As a result they incorporated several community specific provisions which benefited particular religious communities and at the same time shied away from incorporating those provisions in the Constitution which would have put a death nail to the coffin of communalism What is more ominous is that they never realised that their actions and non actions would give a fresh lease of life to communalism and that there would be polarisation of the communities on the basis of religion in post independent India as well

have been precipitous and mostly inadequate This book discusses the educational system of madrasas in South Asia It gives a contextual account of different facets of madrasa education from historical anthropological theological political and religious studies perspectives Some contributions offer recommendations on possible and necessary reforms of religious educational institutions It also explores the roots of militancy and sectarianism in Pakistan as well as its global context Overall the book tries to correct misperceptions on the role of madrasas by providing a more balanced discussion which denies neither the shortcomings of religious educational institutions in South Asia nor their important contributions to mass education
