Archiving Websites A Practical Guide For Information Management Professionals:

Archiving Websites Adrian Brown, 2006-06 This important book is the first to offer practical guidance to information management professionals seeking to implement web archiving programmes of their own. It is essential reading for those who need to collect and preserve specific elements of the web from national domains or individual subject areas to an organization's own website. Drawing on the author's experience of managing the National Archives web archiving programme together with lessons learned from other international initiatives, this book provides a comprehensive overview of current best practice. It assumes only a basic understanding of IT and web technologies but also offers much to more technically oriented readers. Contents include the development of web archiving selection policies, collection methods, quality assurance, preservation, delivery to user, optimizing websites for archiving, legislation, managing a web archiving programme, future trends. Readership: Written to address audiences from the whole spectrum of information management sectors, this book is vital reading for three types of reader: policy makers who need to make decisions about establishing or developing an institutional web archiving programme; information management professionals who may be required to implement a web archiving programme; and website owners and web masters who may be required to facilitate archiving of their own websites.

The Complete Guide to Personal Digital Archiving Brianna H. Marshall, 2018-12-13 Scholars and scrapbookers alike need your help with saving their most important digital content. But how do you translate your professional knowledge as a librarian or archivist into practical skills that novices can apply to their own projects? *The Complete Guide to Personal Archiving* will show you the way, helping you break down archival concepts and best practices into teachable solutions for your patrons' projects. Whether it's a researcher needing to cull their most important email correspondence or an empty nester transferring home movies and photographs to more easily shared and mixed digital formats, this book will show you how to offer assistance, providing explanations of common terms in plain language, quick non-technical solutions to frequent patron requests, a look at the 3-2-1 approach to backing up files, guidance on how to archive Facebook posts and other social media, methods for capturing analog video from obsolete physical carriers like MiniDV, proven workflows for public-facing transfer stations as used at the Washington D.C. Memory Lab and the Queens Library, mobile scanning unit talking points to help seniors make proactive decisions about their digital estates, perspectives on balancing core library values with the business goals of Google, Amazon, Facebook and other dominant platforms, and additional resources for digging deep into personal digital archiving. Featuring expert contributors working in a variety of contexts, this resource will help you help your patrons take charge of their personal materials.

Web History Niels Brügger, 2010 This is the first edited volume to put the emerging field of web history on the agenda of internet research. Sixteen original chapters investigate how the use of the web has developed in the realm of web culture at large as well as how the organization of web industries and old media institutions on the web have changed. A number of fundamental theoretical and methodological questions related to doing

web history are also examined The collection aims to explore some of the possible ways of approaching the web of the past based on the assumption that the past is not only important for historical purposes but because it must be taken into consideration in order to fully understand the web of the present and the web of the future The book includes a foreword by Charles Ess and contributions from Kirsten Foot Steven Schneider Alexander Halavais Ken Hillis and more **The SAGE Handbook of Web History** Niels Brügger,Ian Milligan,2018-12-10 The Web has been with us now for almost 25 years An integral part of our social cultural and political lives new media is simply not that new anymore Despite the rapidly expanding archives of information at our disposal and the recent growth of interest in web history as a field of research the information available to us still far outstrips our understanding of how to interpret it The SAGE Handbook of Web History marks the first comprehensive review of this subject to date Its editors emphasise two main different forms of study the use of the web as an historical resource and the web as an object of study in its own right Bringing together all the existing knowledge of the field with an interdisciplinary focus and an international scope this is an incomparable resource for researchers and students alike Part One The Web and Historiography Part Two Theoretical and Methodological Reflections Part Three Technical and Structural Dimensions of Web History Part Four Platforms on the Web Part Five Web History and Users some Case Studies Part Six The Roads Ahead Library and Information Science Michael F. Bemis,2014-03-03 This unique annotated bibliography is a complete up to date guide to sources of information on library science covering recent books monographs periodicals and websites and selected works of historical importance In addition to compiling an invaluable list of sources Bemis digs deeper examining the strengths and weaknesses of key works A boon to researchers and practitioners alike this bibliography Includes coverage of subjects as diverse and vital as the history of librarianship its development as a profession the ethics of information science cataloging reference work and library architecture Encompasses encyclopedias dictionaries directories photographic surveys statistical publications and numerous electronic sources all categorized by subject Offers appendixes detailing leading professional organizations and publishers of library and information science literature This comprehensive bibliography of English language resources on librarianship the only one of its kind will prove invaluable to scholars students and anyone working in the field A Chronology of Librarianship, 1960-2000 Jeffrey M. Wilhite,2009-07-01 A Chronology of Librarianship 1960 2000 continues the work of Josephine Smith in her original Chronology of Librarianship Scarecrow 1968 It updates and completes her work up to 2000 paying special attention to the progress made on technological and international fronts that have significantly altered the role and function of the librarian especially the rise of the internet in the 1990s The ramifications of this new level of global connectedness and of the new role of the librarian are of primary concern for author Jeffrey M Wilhite This book covers all areas of library literature that inform the history of librarianship and ranges over multiple continents Its broad scope lends itself to wide use by scholars and students of library history and library literature The chronology is presented in a dictionary format and

separated into decades It is complemented by a comprehensive bibliography and name index

Business Planning for Digital Libraries Mel Collier, 2010 This book brings together international experience of business planning for digital libraries the business case planning processes costs and benefits practice and standards and comparison with the traditional library Although there is a vast literature already on other aspects of digital libraries business planning is a subject that until now has not been systematically integrated in a book Digital libraries are being created not only by traditional libraries but also by museums archives media organizations and any institution concerned with managing scientific and cultural information Business Planning for Digital Libraries is designed for practitioners in the cultural and scientific sectors for students in information sciences and cultural management and in particular for people engaged in managing digital libraries and repositories in electronic publishing and e learning and in teaching and studying in these fields
