No Way Back Matthew Klein, 2014-04-15 Jimmy Thane knows all about crossroads Every time he's faced with one he's taken the wrong path At the peak of his career he chose alcohol When his job became shaky he turned to drugs And when his wife lost faith in him he turned to other women Now Jimmy's clean and he's at a new crossroad he's landed the job of a CEO at a failing company in South Florida and has seven weeks to turn it around Except from the moment he enters the building he senses there's something very wrong the place is too quiet too empty When the police come calling about the disappearance of the former CEO Jimmy begins to wonder what he got himself into Then he discovers surveillance equipment in his neighbor's house looking straight into his living room And he begins to notice that his wife isn't just tired she's terrified and trying to hide it Nothing is as it seems Jimmy no longer feels like he's living the dream Instead he's plunged into the worst kind of nightmare there is And when he finally gets to the truth it's more shocking and terrifying than could be imagined

Outcast □ **(Kael Jai: Book 1)** E.J. Deen, 2014-06-08 Outstanding mainstream science fiction Great start to the series YourBookAuthors.com E.J. Deen has created another compelling story to captivate audiences An epic sci-fi movie in the making BestIndieBooks.com I haven't been so excited about a new book series since well I can't even remember when JellyBombReview.com Great Sci-Fi Adventure First Contact with a twist Fast Paced High Tech Action series Aliens genetic engineering intergalactic war witches futuristic ninjas mystery who could ask for more His name is Kael Jai Cast out from his own world after losing a long battle against the madman named Jindom Thrown to Earth through a portal abandoned to fend for himself alone and alienated from his people Alienated Alien That's what he was considered in this world An alien An unknown It was hard to think of himself as alien or even different But to these

people on this planet he was an anomaly something to be feared perhaps even dissected The Priejsthaed had sent him to Earth for his own protection They thought he would be safe there They were wrong Jindom had discovered his location and now Kael Jai must not only fight for his life but also find a way to restore peace on his home world of Trinoor And save Earth from the powerful war machines sent there to kill him Excerpt The girl hesitated for a fraction of a second her eyes darting to the Sulcrum and then she threw the blade in Kael s direction Kael took three giant strides toward her one arm outstretched to catch the heavy Strongblade leapt into the air and used one leg against a nearby lamppost to stop his momentum and turn himself around to face the Sulcrum He caught the blade neatly and deftly turned it in his hand his fingers clenched around the metal hilt Still in motion he launched himself off the pole and met the Sulcrum as it hurtled toward him The blade sank deep into the weak point just below the Sulcrum s chin and stuck out the other side Kael gave the blade a violent twist left then right and stepped sideways as the forward momentum of the Sulcrum s body continued past him and rammed into the glass window of the very store Kael had been standing in front of just minutes earlier Shards of glass flew in all directions as the heavy metal body of the Sulcrum came to a halt in the middle of the now destroyed store display The woman stared at the machine s head as it fell at Kael s feet For a moment Kael stood with his arm still outstretched blade extended outward muscles tensed and bulging and his chest heaving as he worked to catch his breath His eyes were glued to the woman A second later he vaulted towards her grabbed her by the hand and began running away from the storefront as fast as he could drag his baggage behind him She was small and couldn t keep up with him Frustrated he stopped She immediately slammed into the back of him Ow Damn you Where are you taking me she yelled at him Away from here he yelled back Without saying another word he picked her up like she was a sack of potatoes dumped her over his shoulder and ran down the street with her bouncing against his back She wound her fingers into his shirt and held on tight to try and stop the mind numbing bounce of her head I w want to kn know where the hell you re t t taking me she shrieked her words coming out in gasps as her stomach bounced painfully against his shoulder Just as the last word was leaving her lips the Sulcrum exploded in a massive ball of fire that sent bricks glass metal and parts of mannequins flying across the street Kael kept running The woman was too winded to scream when the explosion ripped through the store Sirens howled in the distance fire trucks and police cars already trying to make their way through the city streets to get to the odd scene that citizens had surely reported Only minutes had passed since the Sulcrum s arrival but there was enough chaos and damage on the street to make it look like a terrorist attack Another explosion rocked the atmosphere the sound reverberating off the tall buildings around them The Sulcrum s head exploding just minutes after the body s self destruct Kael kept running He had to get as far away from the scene as possible as fast as possible He ran a mile before he finally stopped and put the woman down Tears streaked her cheeks and her nose was red and wet from crying She wobbled on her feet and shoved her long blonde hair out of her face to get a good look at him Kael was barely panting from the long run Running with her weight on his shoulder hadn t even

winded him His luminous green eyes stared down into her face assessing her emotions and her physical state What the hell was that that thing back there she demanded A Sulcrum he answered succinctly He reached for her hand She snatched it out of his way so that he couldn't take hold of it He frowned You must come with me The hell you say I don't have to go anywhere with you You nearly got me killed back there He reached for her hand again Again she moved out of his grasp I want to know why the man in that armor was trying to kill you and why you are running with me There's no time for that We have to get as far away as possible as fast as possible Every delay could mean the death of us Why And why we Why do I have to go with you What the hell is going on She ended in a near scream of fury and frustration The Sulcrum is not a man It's a machine A very deadly one Kael explained The woman glanced at him nervously She looked dazed confused and he could smell the terror thrumming through her bloodstream You've been imprinted he stated Wha What does that mean It means that you are in danger You must come with me Her eyes were beautiful He'd just noticed Deep as a crystal clear blue spring on Trinoor Her hair the color of the corn silk he'd seen stripped from the ears in the farmers market Skin fair smooth and clear Next to his 6'5" frame she was tiny probably no more than 5'4" Not that it mattered She was under his protection now Like it or not he couldn't leave her She opened her mouth to say something but the words were cut short when he grabbed her by the hand and pulled her down the side street We must get out of sight She tried to twist her hand out of his but his grip was too firm Why should I come with you She yelled the words at the back of his head He turned abruptly and put a large hand over her mouth to shut her up Leaning down close so she could look into the depth of his eyes he said very clearly If you want to remain alive you will follow me to the ends of your planet if need be without hesitation and without argument Her eyes were wide with fear and he could feel her heart thrumming hard against his abdomen The energy of it beat the air between them reaching out to strum his nervous system His senses were at high alert and he could see everything about her smell everything feel everything like no human ever could I'm going to let go now And you're going to be good and not scream If you hold me back any longer I will have no choice but to leave you behind to protect myself If I do that you will die Do you understand She nodded feebly her cheeks pinched up above the meat of his palm She looked like a pathetic little cartoon character on some earth show When he didn't let go she nodded more emphatically and grunted something from beneath his hand He slowly lifted a few fingers She didn't scream so he withdrew his hand but he remained vigilante She gasped once for breath straightened her shirt swallowed hard and nodded again Alright I'm following you Kael assessed her eyes to determine her truth Satisfied that she would give him no more trouble he looked around at his surroundings Microwave and cell phone towers jutted from the tall building next to the abandoned one they stood beside He turned and peered into the distance The energy plant was too far away This building would have to do for now He went to the door and looked through the glass A small hallway led to an empty lobby He jimmied the door and stepped inside Old broken glass crunched beneath his boots He pulled the girl in behind him and closed the door locked it and turned back to look around at the graffiti covered

walls What is this place the girl asked from behind him An abandoned office building he said How do you know I observe Moving silently his senses heightened and alert he led her upstairs to the third floor Glancing around as he went he eased down the hallway until they came to a small room at the end of the hall The girl followed him inside but when he closed the door behind them she seemed wary and nervous Kael ignored her and assessed the room from ceiling to floor then went and peered out the dirty window at the street beyond Satisfied that he would not be battling his way through any more Sulcrums at least for a short while he turned to the only desk that sat to one side of the room He crossed the room and sat down slowly in the dust covered swivel chair The girl looked around the room Why would anyone leave their office furniture behind You ask a lot of questions She shrugged I ve always been curious by nature Questions can get you answers that you won t like to hear She shrugged again Maybe Maybe not You didn t see me running from that big robot thing did you His eyes narrowed She spoke the truth She was the only one who had stood her ground Not that sticking around had been the smart choice I know Tae Kwon Do Been studying it since I was five years old she said as she looked out the dirt smeared window It teaches you to be bold There s a difference between boldness and stupidity Kael replied She turned to frown at him her arms going across her chest The position of her forearms thrust her breasts even higher revealing a tiny bit of cleavage above her sweater Her breath hung in the air reminding him of just how cold she must be The building s windows were mostly broken out allowing for little shelter against the elements How old are you he asked Twenty seven Your name She hesitated her gaze turning toward the floor You first My name is Kael Kyle she repeated Sounds like a perfectly harmless name But you re not harmless And you re not human either are you Kah ell he corrected her pronunciation All drawn together in a subtle way And what makes you think I m not human Well for starters a man appeared out of thin air and called you master and then this big shiny chrome thing stepped out of the crowd and tried to break you in half Now I know the military as advanced as we ve become with our drones and weapons and such doesn t have anything like that hulk and as far as I know humans can t appear out of thin air Not to mention the sword that morphed out of its arm and then morphed back into an arm and then back into a sword like magic Plus my friend swears aliens have been visiting us for ages and maybe you re one of them coming back to visit or coming back to find something or take something Kael stood up effectively cutting off her speech She took a step backward He stopped I m not going to hurt you She repositioned her legs Kael noticed that she had shifted her center of gravity and she was now on the balls of her feet Your Tae Kwon Do is no match for me We ll see about that she retorted Now if you don t start talking I m going to speed dial my cousin who s a New York cop and you ll be apprehended taken to a secret government facility where I m sure you ll be more than happy to talk Kael s mouth twitched at the corners as he held back a laugh You don t bluff well You have no cousin who s a cop Her chin lifted and he saw the glint of defiance in her eyes How do you know that Because I can tell when someone is lying She opened her mouth to say something then clamped it shut again He smiled in satisfaction You and I are in danger I plan on keeping us safe But I must remind you that

if you limit me in any way I will have no choice but to abandon you and leave you to fend for yourself You've seen what a Sulcrum can do so I suggest you work with me not against me She gulped hard but kept her gaze firmly on his Now your name please Sarah Connor His frown deepened into a scowl He was losing patience with this female Your real name he growled as he took a menacing step toward her She gulped again and took a step backward Her back butted against the wall stopping her from escaping Okay Eva My name is Eva She said the words in a rushed desperate near squeal Blurring the lines between First Contact Space Fleet Hard Science Fiction Alien Invasion Technothrillers Genetic Engineering Paranormal Urban Metaphysical Visionary Cyberpunk Adventure Alien Artificial Intelligence Aliens Mutants Psychics Robots Mystery Romance Metaphysical Thor Superhero Sword Invasion Contact Empire Genes Fleet Extraterrestrial Action **Crossing Fifth Avenue to Bergdorf Goodman** Ira Neimark, 2007 From pageboy at Bonwit Teller to CEO of Bergdorf Goodman Ira Neimark crossed Fifth Avenue unlike anyone else Christmas 1938 when he began working at Bonwit Teller on 56th Street Fifth Avenue he had just turned 17 Mary Martin the toast of Broadway sang at Bonwit's exclusive 721 Club Christmas cocktail party where young Ira in a snug bellhop uniform greeted the rich and famous Four decades later as the new CEO of Bergdorf Goodman located across the street on Fifth Avenue he transformed the store from an old dull expensive and intimidating store into a young exciting expensive and intimidating store that became first in luxury and glamour Among his stunning achievements the re-introduction of the Paris couture in the United States unique showcasing of great Italian and French designers developing the best new Americans and throwing fabulous parties and events featuring haute couture that lit the spark for Bergdorf's revival Crossing Fifth Avenue to Bergdorf Goodman captures the magic of fashion retailing at its most dramatic moments as well as the lessons learned that made Ira Neimark a legendary success in the business It is replete with intriguing personal stories about famous people known around the world among them Princess Diana Salvador Dali Jacqueline Kennedy Onassis John Lennon and Yoko Ono Donald Trump and Margaret Thatcher And there are insights into the art and business of fashion that only an insider could give in the stories about Giorgio Armani Geoffrey Beene Bill Blass Carla Fendi Oscar de la Renta Perry Ellis Massimo Ferragamo James Galanos Hubert Givenchy Calvin Klein Estee Lauder Ralph Lauren Mary McFadden Charles Revson Pauline Trigere and many more Only Ira Neimark could tell these stories and articulate the business lessons that made him the last man standing among the greats of fashion retailing lessons that continue to compel leading multi-national companies to seek his counsel *Health Care for the Rural Elderly* United States.
