Bloomington's Hours:

The Life and Times of a Teenage Scribbler John David Keith Richards, 2024-10-29 Growing up in Roath Park Cardiff John Richards never envisaged a career in the cut throat corporate City London the world renowned hub of trading retail and financial marketing Spending his childhood obsessed with trainspotting music and girls John had no aspirations to become a player in the arena of stocks and retail But through a combination of luck hard work and happy accidents he found himself in the esoteric world of stockbroking The path of John's career moved into retail analysis and his experience provides a highly engaging and insightful account of the machinations and vicissitudes faced by some of today's most eminent retailers as they struggled to establish themselves in the ever evolving twentieth century Let's Go New York City 16th Edition Carl Hughes, Let's Go Inc., 2006-11-28 Packed with travel information including more listings deals and insider tips CANDID LISTINGS of hundreds of places to eat sleep drink and dance RELIABLE MAPS to help you get around Manhattan and the other four boroughs THE BEST NIGHTLIFE including comedy clubs sultry jazz joints and the hippest bars STRAIGHT TALK about how to save money in the city and when to splurge FESTIVALS concerts and public events throughout the year SHOPPING tips for chic boutiques cut rate outlets and knock off look alikes New York City 2003, 2002-08-27 A guide to New York City for travelers in a range of budgets providing reviews and ratings of various attractions restaurants and accommodations with suggested itineraries and maps *Best of New York*, 2001 **Selling the Lower East Side** Christopher Mele, 2000 The Lower East Side of Manhattan is rich in stories of poor immigrants who flocked there in the late nineteenth and early twentieth centuries of beatniks hippies and artists who peopled it mid century and of the real estate developers and politicians who have always shaped what is now termed the East Village Today the musical Rent plays on Broadway to a mostly white and suburban audience MTV exploits the neighborhood's newly trendy squalor in a film promotion and on the Internet a cyber soap opera and travel related Web pages lure members of the middle class to enjoy a commodified and sanitized version of the neighborhood In this sweeping account Christopher Mele analyzes the political and cultural forces that have influenced the development of this distinctive community He describes late nineteenth century notions of the Lower East Side as a place of entrenched poverty ethnic plurality political activism and low culture that elicited feelings of revulsion and fear among the city's elite and middle classes The resulting and ongoing struggle between government and residents over affordable and decent housing has in turn affected real estate practices and urban development policies Selling the Lower East Side recounts the resistance tactics used by community residents as well as the impulse on the part of some to perpetuate the image of the neighborhood as dangerous romantic and bohemian clinging to the marginality that has been central to the identity of the East Village and subverting attempts to portray it as new and improved Ironically this very image of urban grittiness has been appropriated by a cultural marketplace hungry for new fodder Mele explores the ways that developers media executives and others have coopted the area's characteristics analyzing

the East Village as a style provider where what is being marketed is difference The result is a visionary look at how political and economic actions transform neighborhoods and at what happens when a neighborhood is what is being consumed

Fashion and Everyday Life Cheryl Buckley,Hazel Clark,2017-02-09 Taking cultural theorist Michel de Certeau s notion of the everyday as a critical starting point this book considers how fashion shapes and is shaped by everyday life Looking historically for the imprint of fashion within everyday routines such as going to work or shopping or in leisure activities like dancing the book identifies the fashion system of the ordinary in which clothing has a distinct role in the making of self and identity Exploring the period from 1890 to 2010 the study is located in London and New York cities that emerged as as socially ethnically and culturally diverse as well as increasingly fashionable The book re focuses fashion discourse away from well trodden power laden dynamics towards a re evaluation of time memory and above all history and their relationship to fashion and everyday life The importance of place and space and issues of gender race and social class provides the broader framework revealing fashion as both routine and exceptional and as an increasingly significant part of urban life By focusing on key themes such as clothing the city what is worn on the streets the imagining and performing of multiple identities by dressing up and down going out and showing off Fashion and Everyday Life makes a unique contribution to the literature of fashion studies fashion history cultural studies and beyond
