Mylar, 1929 Isaac Mylar b 1847 and his family came overland to California in 1852 For three years his father prospected for gold at Shaw s Flat before settling in the town around the old mission of San Juan Bautista in San Benito County Early days at the mission San Juan Bautista 1929 begins with the history of the mission and memories of Mylar s boyhood and schooling in the town and his growing acquaintance with the mission church and the priests and brothers who administered it He recalls life in the town in the 1850s when San Juan helped supply the nearby mines and in later decades political and business leaders schools and churches streets and houses bandits and other criminals hunting hotels and stage lines

The Guaraní and Their Missions Julia J. S. Sarreal, 2014-06-11 The thirty Guaran missions of the R o de la Plata were the largest and most prosperous of all the Catholic missions established throughout the frontier regions of the Americas to convert acculturate and incorporate indigenous peoples and their lands into the Spanish and Portuguese empires But between 1768 and 1800 the mission population fell by almost half and the economy became insolvent This unique socioeconomic history provides a coherent and comprehensive explanation for the missions operation and decline providing readers with an understanding of the material changes experienced by the Guaran in their day to day lives Although the mission economy funded operations sustained the population and influenced daily routines scholars have not focused on this important aspect of Guaran history primarily producing studies of religious and cultural change This book employs mission account books letters and other archival materials to trace the Guaran mission work regime and to examine how the Guaran shaped the mission economy These materials enable the author to poke holes in longheld beliefs about Jesuit mission management and offer original arguments regarding the Bourbon reforms that ultimately made the missions unsustainable

*Planning and Engineering Guidelines for the Seismic Retrofitting of Historic Adobe Structures* E. Leroy Tolles, Edna E. Kimbro, William S. Ginell, 2003-03-20 Adobe or mud brick has been widely used as a building material in the American Southwest including California The vulnerability of many original adobe structures to damage or destruction from earthquakes has been of great concern The guidelines presented here address the practical aspects of this problem and represent the culmination of 12 years of research and testing on the seismic retrofitting of adobe buildings These guidelines can assist in the planning of seismic retrofitting projects consistent with both conservation principles and established public policy

Espíritu Santo de Zúñiga Tamra Lynn Walter, 2010-01-01 San Antonio Conservation Society Citation 2009 In the

early part of the eighteenth century the Spanish colonial mission Espiritu Santo de Zúiga was relocated from far south Texas to a site along the Guadalupe River in Mission Valley Victoria County This mission along with a handful of others in south Texas was established by the Spaniards in an effort to Christianize and civilize the local Native American tribes in the hopes that they would become loyal Spanish citizens who would protect this new frontier from foreign incursions With written historical records scarce for Espiritu Santo Tamra Walter relies heavily on material culture recovered at this site through a series of recent archaeological investigations to present a compelling portrait of the Franciscan mission system By examining findings from the entire mission site including the compound irrigation system quarry and kiln she focuses on questions that are rarely if ever answered through historical records alone What was daily life at the mission like What effect did the mission routine have on the traditional lifeways of the mission Indians How were both the Indians and the colonizers changed by their frontier experiences and what does this say about the missionization process Walter goes beyond simple descriptions of artifacts and mission architecture to address the role these elements played in the lives of the mission residents demonstrating how archaeology is able to address issues that are not typically addressed by historians In doing so she presents an accurate portrait of life in South Texas at this time This study of Mission Espiritu Santo will serve as a model for research at similar early colonial sites in Texas and elsewhere

**Colonial Rosary** Alison Lake, 2006 California would be a

different place today without the imprint of Spanish culture and the legacy of Indian civilization The colonial Spanish missions that dot the coast and foothills between Sonoma and San Diego are relics of a past that transformed California's landscape and its people In a spare and accessible style Colonial Rosary looks at the complexity of California's Indian civilization and the social effects of missionary control While oppressive institutions lasted in California for almost eighty years under the tight reins of royal Spain the Catholic Church and the government of Mexico letters and government documents reveal the missionaries' genuine concern for the Indian communities they oversaw for their health spiritual upbringing and material needs With its balanced attention to the variety of sources on the mission period Colonial Rosary illuminates ongoing debates over the role of the Franciscan missions in the settlement of California By sharing the missions' stories of tragedy and triumph author Alison Lake underlines the importance of preserving these vestiges of California's prestatehood period An illustrated tour of the missions as well as a sensitive record of their impact on California history and culture Colonial Rosary brings the story of the Spanish missions of California alive

**The Architecture of San Juan de**

**Puerto Rico** Arleen Pabon-Charneco, 2016-11-18 As San Juan nears the 500th anniversary of its founding Arleen Pabon Charneco explores the urban and architectural developments that have taken place over the last five centuries transforming the site from a small Caribbean enclave to a sprawling modern capital As the oldest European settlement in the United States and second oldest in the Western Hemisphere San Juan is an example of the experimentation that took place in the American borderland from 1519 to 1898 when Spanish sovereignty ended The author also investigates post 1898 examples to explore

how architectural ideas were exported from the mainland United States Pab n Charneco covers the varied architectural periods and styles aesthetic theories and conservation practices of the region and explains how the development of the architectural and urban artifacts reflect the political cultural social and religious aspects that metamorphosed a small military garrison into a urban center of international significance      **Architect and Engineer of California** ,1919      *The Archaeology and Ethnohistory of the Gateway Area: Middle Rio Grande of Texas* ,1977
