African American Religious History African American Religious History:

African American Religious History Milton C. Sernett, 1999 This is a 2nd edition of the 1985 anthology that examines the religious history of African Americans Black Religion and Black Radicalism Gayraud S. Wilmore, 1998 Since its first publication 25 years ago Black Religion and Black Radicalism has established itself as the classic treatment of African American religious history Wilmore shows to what extent the history of African Americans can be told in terms of religion and to what extent this religious history has been inseparably bound to the struggle for freedom and justice From the story of the slave rebellions and emancipation to the rise of Black nationalism and the freedom struggles of recent times up through the development of Black womanist and Afrocentric theologies Wilmore offers an essential interpretation of African American religious history **Bound For the Promised Land** Milton C. Sernett, 1997-10-13 Discusses the migration of African Americans from the south to the north after WWI through the 1940s and the effect this had on African American churches and religions **African American Religion** Eddie S. Glaude (Jr.), 2014 African American Religion offers a provocative historical and philosophical treatment of the religious life of African Americans Glaude argues that the phrase African American religion is meaningful only insofar as it singles out the distinctive ways religion has been leveraged by African Americans to respond to different racial regimes in the United States If it does not do this he argues then it is time we got rid of the phrase **Down in the Valley** Julius H. Bailey, 2016-04-08 African American religions constitute a diverse group of beliefs and practices that emerged from the African diaspora brought about by the Atlantic slave trade Traditional religions that had informed the worldviews of Africans were transported to the shores of the Americas and transformed to make sense of new contexts and conditions This book explores the survival of traditional religions and how African American religions have influenced and been shaped by American religious history The text provides an overview of the central people issues and events in an account that considers Protestant denominations Catholicism Islam Pentecostal churches Voodoo Conjure Rastafarianism and new religious movements such as Black Judaism the Nation of Islam and the United Nuwaubian Nation of Moors The book addresses contemporary controversies including President Barack Obamas former pastor Jeremiah Wright and it will be valuable to all students of African American religions African American studies sociology of religion American religious history the Black Church and black theology *African American Religious History* Milton C. Sernett, 1999 This is a 2nd edition of the 1985 anthology that examines the religious history of African Americans Through the Storm, Through the Night Paul Harvey, 2011-07-21 Paul Harvey illustrates how black Christian traditions provided theological institutional and personal strategies for cultural survival during bondage and into an era of partial freedom At the same time he covers the ongoing tug of war between themes of respectability versus practices derived from an African heritage the adoption of Christianity by the majority and the critique of the adoption of the white man s religion from the eighteenth century to the present The book also covers internal cultural gendered and class divisions in churches that attracted congregants of widely

disparate educational levels incomes and worship styles Through the Storm Through the Night provides a lively overview of the history of African American religion beginning with the birth of African Christianity amidst the Transatlantic slave trade and tracing the story through its growth in America Paul Harvey successfully uses the history of African American religion to portray the complexity and humanity of the African American experience **African American Religions, 1500-2000**

Sylvester A. Johnson, 2015-08-06 This book provides a narrative historical postcolonial account of African American religions It examines the intersection of Black religion and colonialism over several centuries to explain the relationship between empire and democratic freedom Rather than treating freedom and its others colonialism slavery and racism as opposites Sylvester A Johnson interprets multiple periods of Black religious history to discern how Atlantic empires particularly that of the United States simultaneously enabled the emergence of particular forms of religious experience and freedom movements as well as disturbing patterns of violent domination Johnson explains theories of matter and spirit that shaped early indigenous religious movements in Africa Black political religion responding to the American racial state the creation of Liberia and FBI repression of Black religious movements in the twentieth century By combining historical methods with theoretical analysis Johnson explains the seeming contradictions that have shaped Black religions in the modern era

Teaching African American Religions Carolyn M. Jones Medine, 2005 The variety and complexity of its traditions make African American religion a difficult topic to teach at undergraduate level The essays in this volume offer practical innovative ways to teach this subject in a variety of settings **Down by the Riverside** Larry Murphy, Larry George Murphy, 2000-11 An introductory overview of the development of African American religion and theology Down by the Riverside provides an expansive introduction to the development of African American religion and theology Spanning the time of slavery up to the present the volume moves beyond Protestant Christianity to address a broad diversity of African American religion from Conjure Orisa and Black Judaism to Islam African American Catholicism and humanism This accessible historical overview begins with African religious heritages and traces the transition to various forms of Christianity as well as the maintenance of African and Islamic traditions in antebellum America Preeminent contributors include Charles Long Gayraud Wilmore Albert Raboteau Manning Marable M Shawn Copeland Vincent Harding Mary Sawyer Toinette Eugene Anthony Pinn and C Eric Lincoln and Lawrence Mamiya They consider the varieties of religious expression emerging from migration from the rural South to urban areas African American women s participation in Christian missions Black religious nationalism and the development of Black Theology from its nineteenth century precursors to its formulation by James Cone and later articulations by black feminist and womanist theologians They also draw on case studies to provide a profile of the Black Christian church today This thematic history of the unfolding of religious life in African America provides a window onto a rich array of African American people practices and theological positions
