African Roads Prosperity Socio Cultural Transformations:

African Roads to Prosperity ,2015-11-24 This book brings together in a comparative analysis the results of studies of the various cultural social economic and historical aspects that are formative in African societies experiences of how people negotiated the spaces and times of being in transit on the road to prosperity The book analyses the various outcomes of the process of mobility and the experience of spaces and times of transit across gender generational and class differences These experiences are explored and give insight into the socio cultural and economics transformations that have taken place in African societies in the past century Contributors are Akinyinka Akinyoade Walter van Beek Marleen Dekker Ton Dietz Rijk van Dijk Isaie Dougnon Jan Bart Gewald Meike de Goede Benjamin Kofi Nyarko Samuel Ntewusu Aniegye Taiwo Olabisi Oluwatoyin Shehu Tijjani Yusuf Augustine Tanle and Amisah Zenabu Bakuri Migration and Development in Africa Steve Tonah,Mary Boatemaa Setrana,John A. Arthur,2017-08-28 There are only a few studies that analyze the complex relationship between Migration and development in Africa The book presents the main trends in African migration since the last two decades It analyzes the major migration trends the various migration hubs across the continent and the underlying factors explaining the changing nature of migration across the continent A few of the chapters in the book examine the phenomenon of migration from a national perspective by focusing on migration trends in countries such as Ghana Cameroon Kenya and Nigeria Two chapters examine the migration links between Africa and Europe with one of them focusing on the political links between Ghana and the Netherlands while the other focuses on economic exchanges between the Cameroonian diaspora in Germany and selected groups and organizations in Cameroon The uniqueness of this book lies in the varied disciplinary viewpoints used by the authors in explaining the phenomenon of migration and development in Africa The authors are specialists in the fields of sociology anthropology geography history philosophy and migration studies Examining migration from so many different perspectives enriches the analysis and brings in new insights that would otherwise have been missing with the use of a single disciplinary perspective The book recommends the need for policy coordination by national governments of both origin and destination countries to manage the size and composition of migrants Most migrant receiving countries prefer to receive professionals and persons with the required skills and training while keeping out the bulk of untrained and lowly skilled persons The result of this is that most migrants leave their countries and enter their destination countries illegally swelling the numbers of undocumented immigrants *Entrepreneurship in Africa* ,2017-09-25 Chapters in this book contribute to our understanding of the theory structure and practice of entrepreneurship in diverse African countries Case studies examined include African multinational banks and businesses female entrepreneurs culture and entrepreneurship finance and entrepreneurship and SMEs **Argonauts of West Africa** Apostolos Andrikopoulos,2023-05-10 Examines the paradoxes of kinship in the lives of unauthorized African migrants as they struggle for mobility employment and citizenship in Europe In rapidly changing and highly precarious contexts unauthorized African

migrants turn to kinship in search of security stability and predictability Through the exchange of identity documents between siblings assistance in obtaining such documentation through kinship networks and marriages that provide access to citizenship new assemblages of kinship are continually made and remade to navigate the shifting demands of European states These new kinship relations however often prove unreliable taking on new unexpected dynamics in the face of codependency they become more difficult to control than those who enter into such relations can imagine Through unusually close ethnographic work in West African migrant communities in Amsterdam Apostolos Andrikopoulos reveals the unseen dynamics of kinship through shared papers the tensions of race and gender that develop in mutually beneficial marriages and the vast informal networks of people information and documentation on which migrants rely Throughout *Argonauts of West Africa* Andrikopoulos demonstrates how inequality exclusionary practices and the changing policies of an often violent state demand innovative ways of doing kinship to successfully navigate complex migration routes *African-Australian Marriage Migration* Henrike A. Hoogenraad, 2021-09-13 In *African Australian Marriage Migration An Ethnography of Un happiness* Henrike A Hoogenraad follows journeys of marriage migration among African Australian couples The study narrates these journeys as happiness projects since for cross border couples happiness is connected to dreams for a life long partnership that begins with the visa application Yet happiness is invoked as an aspired state rather than an achieved goal The obstacles of government bureaucracy institutional and everyday racism and unrealistic expectations of romance prevent the hoped for happy endings This monograph upsets a scam artist narrative that generalises migrant men and their sponsoring partners and which obscures the difficult process of crossing borders both physical and intimate Hoogenraad s work is a welcome contribution to anthropological literature on marriage migration *Religious Sensibilities in Pursuit of Sexual Well-Being* Amisah Zenabu Bakuri, 2024-05-03 The self identifying Ghanaian Dutch and Somali Dutch communities residing in the Randstad area of the Netherlands are deeply impacted by religious beliefs and cultural factors in their approach towards sexual health practices well being and pleasure This book shows how religious sensibilities shape the physical activities beauty practices and gendered roles that are adopted into the daily lives of these communities in pursuit of their sexual and general well being Through an ethnographic account it explores and challenges the assumptions held around the complex relationship between religion and sexuality **Xenophobia and Nativism in Africa, Latin America, and the Caribbean** Sabella O. Abidde, Michael R. Hall, José de Arimatéia da Cruz, 2023-07-31 This book historicises and analyses the increasing incidence of xenophobia and nativism in Africa Latin America and the Caribbean It examines how xenophobia and nativism impact the political cohesion and social fabric of states and societies in the regions and offers solutions to aid policy formation and implementation Rather than utilising an overarching framework individual theory is applied to chapters to analyse the diverse connections between xenophobia and nativism in the regions The book explores the economic nationalistic political social cultural and psychological triggers for xenophobia and nativism and their impact on an

increasingly interconnected and interrelated world In addition to the individual and comparative examination of these triggers the book outlines how they can be decreased or altered and argues that Pan Africanism and the unity of purpose among diverse groups in the western hemisphere is still an ideal to which Africa Latin America and the Caribbean can aspire This book will be of interest to academics in the field of African history African Studies Caribbean and Latin American studies cultural anthropology and comparative sociology *Shifting Categories of Work* Lisa Herzog, Bénédicte

Peacebuilding Bruno Charbonneau, Maxime Ricard, 2022-05-30 Africa lies at the centre of the international community's peacebuilding interventions and the continent's rich multitude of actors, ideas, relationships, practices, experiences, locations and contexts in turn shapes the possibilities and practices of contemporary peacebuilding. This timely new handbook surveys and analyses peacebuilding as it operates in this specifically African context. The book begins by outlining the evolution and the various ideologies, conceptualizations, institutions and practices of African peacebuilding. It identifies critical differences in how African peacebuilders have conceptualized and operationalized peacebuilding. The book then considers how different actors sustain, construct and use African infrastructure to identify and analyse converging, differing or competing mandates, approaches and interests. Finally, it analyses specific thematic issues such as gender, justice, development, democracy and the politics of knowledge, before ending with in-depth analyses of case studies drawn from across the continent. Bringing together an international line-up of expert contributors, this book will be an essential read for students and scholars of African politics, post-conflict reconstruction, security and peace and conflict studies.
