**Humanitarian Challenges And Intervention** Thomas G Weiss, 2018-05-04 There are two distinct contemporary challenges to the relief of war induced human suffering one within the institutions that make up the international humanitarian system the other on the ground in war zones Varied interests resources and organizational structures within institutions hamper the effectiveness of efforts on behalf of war victims And at the same time on the ground there are ethical legal and operational challenges and dilemmas that require actors continually to choose a course of action with associated necessary evils Humanitarian challenges and intervention concerns within the international humanitarian system combined with the domestic context of armed conflicts often yield policies that do not serve the immediate requirements of victims for relief protection of rights stabilization and reconstruction Based on compelling up to date case studies of the post Cold War experience in Central America northern Iraq Somalia the former Yugoslavia and the African Great Lakes the authors Thomas G Weiss and Cindy Collins make recommendations for a more effective international humanitarian system *African Frontiers* John Idriss Lahai, Tanya Lyons, 2016-03-23 Through a multidisciplinary approach *African Frontiers* counters the superficial Eurocentric and gender insensitive dominant discursive representation of Africa within the discourse of war and conflict management and security and peace nation building The chapters historicize and theorize the realities in postcolonial African states and the ramifications on the continent's future Situating the study within the context of the prevailing cultural and geo political realities in the postcolonial African states the chapters illustrate the complex ways in which events and processes are experienced at the local level and how these local realities in turn impact and shape the patterns of political and military engagement in Africa and beyond Organized along three major themes Insurgency governance and

peacebuilding expert researchers from around the world contribute chapters on Rebel and insurgent formations such as the RUF the LRA and Boko Haram state governance and corruption terrorism and counter terrorism security and peacebuilding focussing on the tensions and challenges facing post conflict societies such as Sierra Leone Rwanda and the newest nation state on the continent South Sudan This highly significant and topical study problematizes the impact of wars on African nations as well as the epistemological framing of the local realities and fallouts of armed conflict on post colonial states

Uniting Africa David J. Francis, 2017-05-15 Plagued by bloody wars and armed conflicts political instability communal violence and displaced persons and at the mercy of natural catastrophes such as drought and famine it is not surprising that the Western press has long dismissed Africa as the hopeless continent In the face of these challenges Africa today is faced with a stark choice either unite or perish The debate on why and how the continent should unite in terms of co operative peace security and development is more urgent than at any other time in Africa s post colonial history Moving forward from the failure of the earlier typically idealistic Africa unity project David Francis demonstrates how peace and security challenges have created the imperative for change He argues that a series of regional peace and security systems are emerging and that states that have participated in practical experiments in regional peacekeeping peace support operations conflict stabilization management and preventive diplomacy are building de facto systems of peace and security that could be institutionalized and extended
