Histories of Religious Thought and Practice in

Africa PROFESSOR LOUIS. BRENNER, 2024-12-17 This book is a richly detailed comparative analysis of endogenous Muslim and Christian religious thought and practice in sub Saharan Africa Organized thematically the book presents a conceptual and analytical framework for the study of religious traditions as complex and constantly evolving social phenomena The most salient theme in the book is how different religious traditions defined and provided for the personal and communal wellbeing of their adherents Other major themes explore how religious traditions have influenced one another how religious practitioners conceptualized and interacted with spiritual entities how religious knowledge and expertise were acquired and transmitted how rituals were organized and structured in order to achieve their aims and how rituals affected those who performed them Additional topics analysed include the personalization of relationships with spiritual entities the gendering of religious thought and practice how personal transformative rituals were conceptualized and enacted with reference to stages of the life cycle such as birth marriage and death and how suffering was seen as integral to the process of personal transformation Overall the book engages with issues that continue to animate the study of religious thought and practice in Africa and African studies more generally

The Yoruba God of Drumming Amanda Villepastour, 2016-01-19 As one of the salient forces in the ritual life of those who worship the pre Christian and Muslim deities called orishas the Yor b god of drumming known as y n in Africa and A in Cuba is variously described as the orisha of drumming the spirit of the wood or the more obscure Yor b praise name As r Igi Wood That Talks With the growing global importance of orisha religion and music the consequence of this deity's power for devotees continually reveals itself in new constellations of meaning as a sacred drum of Nigeria and Cuba finds new diasporas Despite the growing volume of literature about the orishas surprisingly little has been published about the ubiquitous Yor b music spirit Yet wherever one hears drumming for the orishas y n or A is nearby This groundbreaking collection addresses the gap in the research with contributions from a cross section of prestigious musicians scholars and priests from Nigeria the Americas and Europe who have dedicated themselves to studying

Yor b sacred drums and the god sealed within As well as offering multidisciplinary scholarly insights from transatlantic researchers the volume includes compelling first hand accounts from drummer priests who were themselves history makers in Nigerian and Cuban diasporas in the United States Venezuela and Brazil This collaboration between diverse scholars and practitioners constitutes an innovative approach where differing registers of knowledge converge to portray the many faces and voices of a single god

Topographies of African Spirituality Afe Adogame, Ebenezer Obadare, Wale

Adebanwi, 2025-01-31 This book explores African spirituality inside and outside of religion investigating African traditions and perceptions in the study of spirituality across Africa and the African diaspora It provides an interdisciplinary reflection on key issues in the field and sheds light on everyday experiences In particular the volume celebrates the work and mentorship of Professor Jacob K Olupona a leading figure in the study of African spiritualities religions in Africa and methodological approaches to the study of religion With chapters by an impressive range of scholars from institutions across Africa Europe and North America this book makes a valuable empirical and theoretical contribution to the development of African religious studies The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Crossing Religious Boundaries Marloes Janson, 2021-06-10 Religious pluralism as encountered in multi faith settings such as Nigeria's biggest city Lagos challenges much of what we have long taken for granted about religion including the ready made binaries of Christianity versus Islam religion versus secularism religious monism versus polytheism and tradition versus modernity In this book Marloes Janson offers a rich ethnography of religions religious pluralism and practice in Lagos analysing how so called religious shoppers cross religious boundaries and the coexistence of different religious traditions where practitioners engage with these simultaneously Prompted to develop a broader conception of religion that shifts from a narrow analysis of religious traditions as mutually exclusive Janson instead offers a perspective that focuses on the complex dynamics of their actual entanglements Including real life examples to illustrate religion in Lagos through religious practice and lived experiences this study takes account of the ambivalence inconsistency and unpredictability of lived religion proposing assemblage as an analytical frame for exploring the conceptual and methodological possibilities that may open as a result

Diaspora and Visual Culture Nicholas Mirzoeff, 2014-04-04 This is the first book to examine the connections between diaspora the movement whether forced or voluntary of a nation or group of people from one homeland to another and its representations in visual culture Two foundational articles by Stuart Hall and the painter R B Kitaj provide points of departure for an exploration of the meanings of diaspora for cultural identity and artistic practice A distinguished group of contributors who include Alan Sinfield Irit Rogoff and Eunice Lipton address the rich complexity of diasporic cultures and art but with a focus on the visual culture of the Jewish and African diasporas Individual articles address the Jewish diaspora and visual culture from the 19th century to the present and work by African American and Afro Brazilian artists
