What am I willing to do to keep and build influence with _____ Caleb knows our love for others is best measured by the lengths we'll go to help them. He also recognizes that people find and follow Jesus better in community than in isolation. As a child raised by three activist gay parents, Caleb experienced firsthand the outrage of some Christians. That's why he is committed to creating a sense of belonging for all people. True community can happen only when Christians are intentional in infusing their attitudes, systems, and values with grace and truth. This hopeful practical book offers tools for encouraging church involvement, strengthening personal relationships, increasing empathy, and engaging in pivotal conversations about grace and truth with our whole community. Fostering a culture of belonging is a messy process, but it holds a massive possibility for everyone involved: a growing relationship with Jesus.

Real Philosophy for Real People Fr. Robert McTeigue, S.J., 2020. The philosopher Paul Weiss once observed: Philosophers let theories get in the way of what they and everyone else know. For many, the very word philosophical has become all but synonymous with impractical. Yet whether we like it or not, almost every corner of our lives, from dissertation writing to channel surfing, brings us face to face with competing philosophies and world views, each claiming to tell us definitively what it means to be human. How can we know which one is right? And what difference does it make? To Robert McTeigue, S.J., it makes every difference in the world. Consciously or not, we all have a world view, and it decides how we live. In this book, McTeigue gives a funny and invigorating crash course in practical logic, metaphysics, anthropology, and ethics, equipping readers with a tool kit for breaking down and evaluating the thought systems, some good, some toxic, that swirl around us and even within us. In McTeigue's classical philosophy finds a contemporary voice accessible to the layman and engaging to the scholar. *Real Philosophy for Real People* is an answer to those philosophies that prize theory over truth, to any metaphysics that cannot account for itself, to anthropologies that are unworthy of the human person, and to ethical systems that reduce the great dignity and destiny of the human person. As the author insists, a key test of any philosophy is: Can it be lived? With Thomas Aquinas, this book teaches not only how to know the truth but how to love it and to do it.

Introducing Intersectionality Mary Romero, 2024-12-03. How can we hope to understand social inequality without considering race, class, and gender in tandem? How do they interact with other categories such as sexuality, citizenship, and ableism? How does an inclusive analysis of domination and privilege move us closer to solutions touching the lives of diverse populations? In this updated edition of her popular introduction, Mary Romero presents intersectionality as a core facet of the sociological imagination. One-dimensional approaches are no longer acceptable; we must examine all systems of oppression simultaneously and how they integrate and work with or against each other to shape life experiences. Recognizing the dynamics of patriarchy, capitalism, and white supremacy, Romero shows how social inequality is maintained or minimized in various social settings and interactions. The new edition is updated with the latest literature and theoretical insights, as well as addressing contemporary political issues and conservative backlash from immigrant detention and abortion restrictions to attacks on Critical Race Theory. Offering an overview of scholarly and

activist tradition in the development of intersectionality as a lens to enrich our understandings of social life this introductory text will be an invaluable and welcome resource for all students of sociology Introducing the New Sexuality Studies

personal transformations are possible but authentic transformation requires both personal testimony and public recognition In this book Adam Ellwanger takes a distinctly rhetorical approach to analyzing how the personal and the public relate to an individual's transformation and develops a new vocabulary that enables a critical assessment of the concept of authenticity The concept of metanoia is central to this project Charting the history of metanoia from its original use in the classical tradition to its adoption by early Christians as a term for religious conversion Ellwanger shows that metanoia involves a change within a person that results in a truer version of him or herself a change in character or ethos He then applies this theory to our contemporary moment finding that metanoia provides unique insight into modern forms of self transformation Drawing on ancient and medieval sources including Thucydides Plato Paul the Apostle and Augustine as well as

contemporary discourses of self transformation such as the public testimonies of Caitlyn Jenner and Rachel Dolezal Ellwanger elucidates the role of language in signifying and authenticating identity Timely and original Ellwanger s study formulates a transhistorical theory of personal transformation that will be of interest to scholars working in social theory philosophy rhetoric and the history of Christianity
