Human Rights After Deleuze Christos Marneros, 2022-11-03 This book examines the possibility of creating new ways of existing beyond human rights Multiple socio political crises and the dominance of neoliberal and capitalist policies have led legal and political theorists to question the emancipatory promise of human rights and to reconceptualise human rights in theory and practice The possibility of creating new ways of existing beyond human rights has been left significantly under examined until now Having as its starting point the ferocious yet brief critique on human rights of one of the most prominent French philosophers of the 20th century Gilles Deleuze the book argues that Deleuze's critique is not only compatible with his broader thought but that it has the potential to give a new impetus to the current critiques of human rights within the disciplinary borders of legal and political theory The book draws upon Deleuze's broader thought but also radical legal and political theory and continental philosophy In particular it investigates and expands on two of Deleuze's most important notions namely those of immanence and becoming and their relation to the philosopher's critique of human rights In doing so it argues that these two notions are capable of questioning the dominant and dogmatic position that human rights enjoy

The Literary Exception and the Rule of Law Johan Van Der Walt,2022-07-20 Addressing the influential analysis of law and literature this book offers a new perspective on their relationship The law and literature movement that has gained global prominence in the course of last decades of the twentieth and the first decades of the twenty first centuries has provided the research and teaching of law with a considerable body of new and valuable knowledge and understanding Most of the knowledge and insights generated by the movement concern either a thematic overlap between legal and literary discourses suggesting they deal with the same moral concerns or a rhetorical semiotic or general linguistic comparability or sameness between them imputing to both the same or very similar narrative structures The Literary Exception and the Rule of Law recognises the wealth of knowledge generated by this approach to the relationship between law and literature and acknowledges its debt to this genre of scholarship It nevertheless also proposes on the basis of a number of revealing phenomenological inquiries a different approach to law and literary studies one that emphasises the irreducible difference between law and literature It does so with the firm belief that a regard for the very different and indeed opposite discursive trajectories of legal and literary language allows for a more profound understanding of the unique and indeed separate roles that the discourses of law and

literature generally play in the sustenance of relatively stable legal cultures This important rethinking of the relationship between law and literature will appeal to scholars and students of legal theory jurisprudence philosophy politics and literary theory

Human Rights and the Body Annabelle Mooney, 2016-05-13 Human Rights and the Body is a response to the crisis in human rights to the very real concern that without a secure foundation for the concept of human rights their very existence is threatened While there has been consideration of the discourses of human rights and the way in which the body is written upon research in linguistics has not yet been fully brought to bear on either human rights or the body Drawing on legal concepts and aspects of the law of human rights Mooney aims to provide a universally defensible set of human rights and a foundation or rather a frame for them She argues that the proper frames for human rights are firstly the human body seen as an index reliant on the natural world secondly the globe and finally language These three frames generate rights to food water sleep and shelter environmental protection and a right against dehumanization This book is essential reading for researchers and graduate students in the fields of human rights and semiotics of law
