Aphasiology Aphasiology:

Aphasiology Robert T. Wertz, Joseph R. Duffy, 2001-03-15 Frederic L Darley was the consummate clinical scientist One cannot peruse the literature on neurogenic communication disorders without constantly encountering his name his work his influence His work was monumental The contributors of the seven papers in this issue of *Aphasiology* have long and impressive track records as researchers and clinicians Their papers are important because not only do they reflect how Darley's work has influenced diagnostic and patient management decisions but in some cases the contributors take issue with and or expand on his work This ability to question existing evidence was a trait that Fred Darley instilled in his students Equally important is that each paper tells us something about him as a person as a mentor who shaped careers and about the love and respect his students and colleagues had for him *40th Clinical Aphasiology Conference* Beth Armstrong, 2013-11-19 First published in 2011 Routledge is an imprint of Taylor Francis an informa company **34th Clinical Aphasiology Conference** Holland, 2005 This special issue of *Aphasiology* represents the papers accepted for publication which were among those presented at the 34th Clinical Aphasiology Conference held in Park City Utah in 2004 They have been peer reviewed and selected by a distinguished group of ad hoc editorial consultants from among the considerably larger number of papers and posters presented at the meeting itself Forums in Clinical Aphasiology David J. Muller, Chris Code, 2008-04-30 This work brings together a selection of Clinical Forum features from the journal *Aphasiology* The fora are designed to cover issues in clinical aphasiology which are central topical and controversial Each forum concerns a main article and a number of commentaries **Clinical Aphasiology** Martin Ball, Jack Damico, 2007-06-11 This book presents a collection of cutting edge work from leading researchers and clinicians around the world on a range of topics within Clinical Aphasiology However more than this the volume is also a tribute to Chris Code one of the foremost scholars in the field Professor Code has made a galvanizing impact on the field as a savant a motivator and an impresario of trends which have resulted in several significant developments in the field In the first chapter of this book the editors outline the considerable contributions Chris Code has made to the area The remaining contents have been divided into three main approaches to the study of aphasia reflecting Professor Code's own interests First are the contributions that fall under the heading of Conceptual Considerations These are mainly interdisciplinary in nature spanning linguistics phonetics psychology and neurology as well as social aspects of communication disorders The second section of the book deals with Research Considerations with chapters ranging from how the study of disrupted communication can inform models of normal language processing through tone production and processing in speakers with aphasia to anomia and progressive multifocal leukoencephalopathy Each of these chapters explores different aspects of research methodology including quantitative and qualitative research The final section of the collection deals with Clinical Considerations the chapters here cover counselling computerized training cultural and linguistic diversity in aphasia right hemisphere disorders and communication problems in

the dementias Clinical Aphasiology will be an invaluable tool for both students and practitioners in speech and language pathology psychology neurology and related fields *Aphasiology* George Albyn Davis, 2007 Aphasiology Disorders and Clinical Practice 2 offers a uniquely balanced and comprehensive presentation of aphasia encompassing both theoretical study and clinical practice Written in a highly accessible style this text carefully explains and illustrates key paradigms in research and treatment The author uses tables to summarize essential points and to provide historical overviews Structured according to a course outline the book begins with etiology and moves quickly to clinical assessment It teaches diagnostic thinking with respect to the relationships between symptoms and hidden impairments in cognitive terms This thinking is illustrated with research as well as more explicitly with assessments and treatments Through this approach a future clinician should acquire an appreciation for the scientific investigation that supports a clinical discipline The Second Edition features updated information on many topics such as functional assessments and treatments including ethnography and outcome measures and medical aspects and treatments keep the text current and competitive in the field It also includes a new chapter on dementias supplements current chapters on other cognitive disorders right hemisphere dysfunction and traumatic brain injury Each of these chapters includes additional information on rehabilitation as well as up to date information on current research The content has been reorganized within and between chapters to maximize readability and ease of use as a course text Psycholinguistics background has been restructured to improve efficiency and readability of the text Chapter 6 on Special Investigations has been eliminated from this edition and its topics have been redistributed improving the overall flow of the text Clinical aphasiology Conference on clinical aphasiology, 1984

Aphasia and Related Neurogenic Communication Disorders Ilias Papathanasiou, Patrick Coppens, 2021-06-03 Aphasia and Related Neurogenic

Communication Disorders is designed for the graduate course on Aphasia Part 1 of the textbook covers aphasiology while part 2 addresses related disorders Overall the textbook offers an overview of aphasia and related neurogenic communication disorders by presenting important recent advances and clinically relevant information It emphasizes Evidence Based Practice by critically reviewing the pertinent literature and its relevance for best clinical practices Case studies in all clinical chapters illustrate key topics and a Future Directions section in each chapter provides insight on where the field may be headed The WHO ICF Framework is introduced in the beginning of the text and then reinforced and infused throughout

Linguistic Theory for Aphasia Maria Garraffa, Giuditta Smith, 2024-12-23 This book presents a cutting edge overview of the language models of in phonology morphology syntax and pragmatics proposed to underlie language phenotypes across aphasic syndromes as well as the potential applications of linguistic theory to advance therapeutic treatment and research in aphasiology It draws together examples from a range of aphasic syndromes providing valuable insights into the way language specific properties may affect the manifestation of language deficits across aphasia The authors discuss experimental evidence of deficits across language domains which is crucial to those who study language abilities in aphasia It concludes by

examining how linguistic theory might contribute to patient classification in aphasia and to future directions for research in experimental linguistics and aphasiology This book will appeal to students and scholars of neuropsychology psycholinguistics linguistics and speech and language therapy **Aphasia** Argye Elizabeth Hillis, Julius Fridriksson, 2022-01-23 Aphasia Volume 185 covers important advances in our understanding of how language is processed in the brain and how lesions or degeneration in the left hemisphere affect language processing This new release reviews research regarding how language recovers from brain injury along with new interventions developed to enhance recovery including language rehabilitation noninvasive brain stimulation and medications Sections cover neuroanatomy and neurophysiology of language networks focus on mechanisms of recovery and decline of language and include chapters on intervention including recently developed behavioral therapies brain stimulation medications and a review of studies of treatment for both post stroke aphasia and primary progressive aphasia Summarizes advances made in understanding language processing Discusses how lesions and brain degeneration affect language production and comprehension Identifies language networks based on functional imaging and lesion mapping Provides interventions for recovery including brain stimulation behavioral interventions and medication Explores post stroke aphasia and primary progressive aphasia
