the Identity of the Papal Power With the Man of Sin and Son of Perdition of St Paul s Prophecy in the Second Epistle to the Thessalonians Proved From the Testimony of Scripture and History There are many circumstances in the times in which we live that seem to call for new state ments of the principles upon which the Reformed Churches originally separated from Rome and continue still to reject her authority In general it is to be feared that Protestants are very ignorant of the present state of the Church of Rome and it is perhaps to be attributed to this cause that an impression seems to have become widely disseminated that the Popery of the present day is essentially different from that professed in former times The author of these pages believes this impression to be both erroneous and dangerous and in order to show what the Romish Church now is he has endeavour ed as much as possible to draw his information from the more recent statements of the doctrines and worship of that Church About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Apostasy of the Church of Rome, and the Identity of the Papal Power**
