Athanasius And Constantius Theology And Politics In The Constantinian Empire:

Athanasius and Constantius Timothy David Barnes, 2001 Barnes's reconstruction of Athanasius's career analyzes the nature and extent of the Bishop's power especially as it intersected with imperial policies Untangling classic misconceptions Barnes reveals the Bishop's true role in the struggles within Christianity and in the relations between the Roman emperor and the Church at a critical juncture *Athanasius and Constantius* Timothy D. Barnes, 2004 The Politics of Heresy in Ambrose of Milan Michael Stuart Williams, 2017-10-19 Ambrose of Milan is famous above all for his struggle with and triumph over Arian heresy Yet almost all of the evidence comes from Ambrose's own writings and from pious historians of the next generation who represented him as a champion of orthodoxy This detailed study argues instead that an Arian opposition in Milan was largely conjured up by Ambrose himself lumping together critics and outsiders in order to secure and justify his own authority Along with new interpretations of Ambrose's election as bishop his controversies over the faith and his clashes with the imperial court this book provides a new understanding of the nature and significance of heretical communities in Late Antiquity In place of rival congregations inflexibly committed to doctrinal beliefs it envisages a world of more fluid allegiances in which heresy but also consensus could be a matter of deploying the right rhetorical frame *A History of Christian Psalmody* Charles H. Cosgrove, 2025 A History of Christian Psalmody traces history of Christian psalm singing during the church's first five centuries It describes the formats melodic character and uses of psalmody in a wide range of settings including personal and domestic devotion church liturgy monastic life and public ecclesial events such as processions **The Encyclopedia of Christianity** Erwin Fahlbusch, Geoffrey William Bromiley, 1999 This multifaceted and up to date encyclopedia is sure to be of interest to pastors and church workers of all confessions equally so to students scholars and researchers around the world who are interested in any aspect of Christianity or religion in general The first volume contains 465 articles that address a comprehensive list of topics **Episcopal Networks in Late Antiquity** Carmen Angela Cvetković, Peter Gemeinhardt, 2019-02-19 Recent studies on the development of early Christianity emphasize the fragmentation of the late ancient world while paying less attention to a distinctive feature of the Christianity of this time which is its inter connectivity Both local and trans regional networks of interaction contributed to the expansion of Christianity in this age of fragmentation This volume investigates a specific aspect of this inter connectivity in the area of the Mediterranean by focusing on the formation and operation of episcopal networks The rise of the bishop as a major figure of authority resulted in an increase in long distance communication among church elites coming from different geographical areas and belonging to distinct ecclesiastical and theological traditions Locally the bishops in their roles as teachers defenders of faith patrons etc were expected to interact with individuals of diverse social background who formed their congregations and with secular authorities Consequently this volume explores the nature and quality of various types of episcopal relationships in Late Antiquity attempting to understand how they were established cultivated and put to use
