García, 2018-08-01 This is the amazing untold story of the Los Angeles sanctuary movement's champion Father Luis Olivares 1934-1993 a Catholic priest and a charismatic faith driven leader for social justice Beginning in 1980 and continuing for most of the decade hundreds of thousands of Salvadoran and Guatemalan refugees made the hazardous journey to the United States seeking asylum from political repression and violence in their home states Instead of being welcomed by the country of immigrants they were rebuffed by the Reagan administration which supported the governments from which they fled To counter this policy a powerful sanctuary movement rose up to provide safe havens in churches and synagogues for thousands of Central American refugees Based on previously unexplored archives and over ninety oral histories this compelling biography traces the life of a complex and constantly evolving individual from Olivares's humble beginnings in San Antonio Texas to his close friendship with legendary civil rights leader Cesar Chavez and his historic leadership of the United Neighborhoods Organization and the sanctuary movement *Research in Education*, 1973 ***The United States Manual of Biography and History ... with Authentic Copies of the Declaration of Independence, the Articles of Confederation, and the Constitution of the United States. The Impossible Craft Scott Donaldson, 2015-02-23 In *The Impossible Craft* Scott Donaldson explores the rocky territory of literary biography the most difficult that biographers try to navigate Writers are accustomed to controlling the narrative and notoriously opposed to allowing intruders on their turf They make bonfires of their papers encourage others to destroy correspondence write their own autobiographies and appoint family or friends to protect their reputations as official biographers Thomas Hardy went so far as to compose his own life story to be published after his death while falsely assigning authorship to his widow After a brief background sketch of the history of biography from Greco Roman times to the present Donaldson recounts his experiences in writing biographies of a broad range of twentieth century American writers Ernest Hemingway F Scott Fitzgerald John Cheever Archibald MacLeish Edwin Arlington Robinson Winfield Townley Scott and Charlie Fenton Donaldson provides readers with a highly readable insiders introduction to literary biography He suggests how to conduct interviews and what not to do during the process He offers sound advice about how closely biographers should identify with their subjects He examines the ethical obligations of the biographer who must aim for the truth without unduly or unnecessarily causing discomfort or worse to survivors He shows us why and how misinformation comes into existence and tends to persist over time He describes the mythical ideal biographer an imaginary creature of universal intelligence and myriad talents beyond the reach of any single human being And he suggests how its very impossibility makes the goal of writing a biography that captures the personality of an author a challenge well worth pursuing *The Publishers' Trade List Annual*, 1978
