A New History of Spanish Writing, 1939 to the 1990s Chris Perri m, 2000 A New History of Spanish Writing 1939 to the 1990s explores the diversity of some sixty years of imaginative writing by Spaniards its interactions with Spain's peculiarly dramatic history since the end of its Civil War and its wider thematic significance It covers the famous and canonical texts of

the most recent in Modern Spanish literature but also explores areas less well known outside Spain essays and editorials queer narrative new poetry comics and texts of the militant and reactionary Right More space than is usual in literary histories is allowed for commentary on famous texts but the book also makes room for the marginalized and for socially contextualized explorations of the interconnectedness of various forms of writing The overall structure is not chronological but thematic dealing with abstract and topical issues such as silence the family or realism

The Problem of Woman in Late-medieval Hispanic Literature Robert Archer,2005 This book argues that the problem of gender identity is vital to the large corpus of medieval Hispanic texts that discuss the nature of women What is a woman This book questions the persistent assumption that the large corpus of medieval Hispanic texts that discuss the nature of women can be defined in terms of the clichéd discourses of misogyny and defence of women arguing instead that the problem of gender identity is vital to them all The texts some well known others which have received scant critical attention are each discussed in their specific contexts and in relation to the ostensible reasons for their composition such as a political literary religious or didactic agenda They are also related to the literary traditions in which they are written misogynistic denunciation satire humour defence narrative debate among others and the particular theoretical problems arising from them are discussed But it is also argued that the full meaning of the texts lies at the less immediately accessible level at which they address this very problem of definition one which arises directly from the self-perpetuating contradictions of authoritative wisdom on the nature of women
