Beukelman, Pat

Mirenda, 2005 Approaching severe communication disorders from an intervention perspective this trusted resource thoroughly prepares students and practicing professionals to serve individuals with augmentative and alternative communication needs In this revised third edition professionals working or preparing to work with children and adults who use AAC will get new and expanded content on adults with degenerative language or cognitive disorders adults with acquired disabilities students who use AAC in general education classrooms use of capability assessment to determine needs and identify AAC options and the most recent AAC devices and interventions Readers will still have everything that made the earlier editions of this text so useful extensive coverage of AAC assessment intervention planning and the many different

types of congenital and acquired communication disorders see sidebar plus a step by step guide to clinical application A comprehensive textbook for students in introductory courses and a valuable reference for in service educators and therapists this book will help professionals guide children and adults as they increase their communicative competence and participate more fully in all aspects of life **Handbook of Developmental Disabilities** Samuel L. Odom, Robert H. Horner, Martha E. Snell, 2009-01-21 This authoritative handbook reviews the breadth of current knowledge about developmental disabilities

neuroscientific and genetic foundations the impact on health learning and behavior and effective educational and clinical practices Leading authorities analyze what works in intervening with diverse children and families from infancy through the school years and the transition to adulthood Chapters present established and emerging approaches to promoting communication and language abilities academic skills positive social relationships and vocational and independent living skills Current practices in positive behavior support are discussed as are strategies for supporting family adaptation and resilience Principles and Practices in Augmentative and Alternative Communication Donald Fuller, Lyle Lloyd, 2024-06-01

A definitive textbook for students in speech language pathology audiology and communication sciences and disorders Principles and Practices in Augmentative and Alternative Communication offers students an introduction to augmentative and alternative communication AAC and prepares them for working with clients with complex communication needs Editors Drs Donald R Fuller and Lyle L Lloyd and their contributors provide a foundation for the development of assessment and intervention procedures and practices within the framework of the communication model and its major components the means to represent the means to select and the means to transmit Principles and Practices in Augmentative and Alternative Communication consists of five major units An introduction to AAC from its history to current practice An overview of AAC symbols and a comprehensive discussion of aided and unaided symbols A review of AAC technology The components of AAC assessment principles vocabulary symbol selection and the prescription of AAC technology AAC intervention everything from the components of the intervention process to examples from specific cases and settings Included with the text are online supplemental materials for faculty use in the classroom Students and professionals looking for a foundational textbook in the field of AAC will find Principles and Practices in Augmentative and Alternative Communication to be effective contemporary and practical *Fundamentals of AAC* Nerissa Hall, Jenifer Juengling-Sudkamp, Michelle L. Gutmann, Ellen R. Cohn, 2025-10-15 The second edition of Fundamentals of AAC A Case Based Approach to Enhancing Communication

continues to be a course friendly textbook designed to walk readers through the theoretical and clinical underpinnings of assessment intervention and consultation for individuals with complex communication needs across the lifespan Augmentative and alternative communication AAC encompasses a variety of communication methods and is used by those with a wide range of speech and language impairments With a consistent framework and descriptive case studies as well as input from various stakeholders readers can gain a comprehensive understanding of the needs of persons who use AAC and

how to provide them with ethically and culturally considerate support Unlike other texts on this topic this book empowers readers to visualize AAC in action Each chapter begins with fundamental concepts and principles followed by a relevant case study that presents the concepts and principles in action that guide the reader through the use of clinical decision making in AAC Every case study is designed to underscore the cultural linguistic and social variability inherent to the fields of AAC and communication sciences and how each individual influences the manifestation of the AAC system treatment and implementation plans Intended to easily translate into a 6 8 or 13 week semester course this textbook is divided into eight distinct sections Section I provides an overview of AAC no tech mid tech and high tech AAC systems as well as mobile technology and advancing technology Section II discusses language fundamentals Section III reviews AAC assessment intervention and implementation for toddlers preschoolers and school aged individuals along with goal writing and data collection Section IV covers assessment intervention and implementation for young adults and adults needing AAC Section V offers the reader detailed information and rich examples of the application of AAC for persons with developmental disabilities Section VI provides the theoretical foundation and exemplar case studies of AAC for persons with acquired disabilities Section VII details consultation and training for various stakeholders as well as tele AAC services Section VIII presents a collection of essays from various stakeholders New to the Second Edition A chapter dedicated to AAC and literacy Updated information about neuro affirming practice technology advancements like artificial intelligence and automation and implementation of AAC outside of intervention New photos and videos Updated intervention resources Report writing tools Enhanced instructor resources Key Features Overviews with key terms set the stage for each section 36 case studies with questions and visuals to clearly depict each case Boxes with practical tips and expert advice

Introduction to AAC Lesley E. Mayne, 2025-08-12 Written specifically for undergraduate level and speech language pathology assistant students Introduction to AAC focuses on AAC for children and adults It presents the foundational knowledge of AAC in a way that is engaging for beginning students incorporating pedagogical elements designed to encourage active learning such as Mindful Minute Reflection and Try It Out Reflection critical thinking opportunities embedded in each chapter The text also presents questions throughout the chapter rather than at the end in the format of declarative questions application tasks and open ended For thought questions The chapter conclusions are also designed to support learners absorb the information by using headers What did I learn Why does it matter and What's next to drive home overarching ideas The first header uses person first language to guide the learner to read the summary of the overarching concepts of the chapter Then the student learns about the implication of the importance of the information Finally concepts of the upcoming chapter are outlined detailing a natural progression that links the information from the current chapter to the following chapter Key Features Bolded terms The bolded term feature allows students to visually landmark on important concepts create associations with the surrounding text and identify them again more easily when preparing for assignments projects and exams Case studies Mini and full case

studies create an opportunity to blend conceptual knowledge with a real world person They play a vital role in creativity allowing students to consider application of concepts to someone that they may work with or support in their future Mindful Minute At one or more points in the chapter a Mindful Minute opportunity is embedded that creates space for a learner to pause and consider the content The learner is asked to do something with a concept that was introduced Reflection encourage students to take a perspective consider their perspective think about prior experiences or establish new thoughts on a topic Try It Out Reflection challenges students on their understanding of a concept with a quick activity and reflection Please note ancillary materials such as eFlashcards activities and related resources are not included as with the print version of this book

Supporting Children's Speech, Language and Communication Needs Susan McCool, 2025-11-13 This book is the definitive text on understanding and supporting children's speech language and communication needs SLCN Written by experts it presents evidence based approaches in a highly accessible format Wide ranging in scope Supporting Children's Speech Language and Communication Needs covers best practice for many groups of children including those with speech sound disorders Developmental Language Disorder DLD and neurodevelopmental differences discusses specialist populations including acquired brain injury and cleft lip and palate as well as childhood onset eating drinking and swallowing difficulties features chapters on inclusive communication environments Alternative and Augmentative Communication AAC communication partners the whole systems approach and evidencing impact exploring cross cutting themes Case studies are included throughout to bring learning to life and recommended online sources of further information are included Comprehensive authoritative and up to date this book will prove indispensable for students and practitioners in speech and language therapy

Language Disorders from Infancy Through Adolescence Rhea Paul, 2007-01-01 This text provides students with the information needed to properly assess childhood language disorders and decide appropriate treatments The book covers language development from birth to adolescence
