Auricular Therapy Bryan L. Frank, Nader E. Soliman, 2006 Although most of the world approaches Auricular Therapy from a simplistic single phase model understanding the advanced Phases 2 and 3 are critical to improving patient response especially in chronic inflammatory and degenerative conditions Further understanding the concepts of advanced Auricular Therapy enables the clinician to enhance his/her understanding of the patient's pathophysiology and thus to approach the patient as a true clinician rather than as simply a technician *Auricular Medicine and Auricular Therapy* Bryan L. Frank, Acupuncture Arts & Press LLC, 2007 George MacDonald's poetry fairy tales fantasies and fiction clothe his deep spiritual insights His sermons lectures essays and novels demonstrate his wide range of interest in literary as well as religious thought MacDonald's letters several biographies and anthologies all published near the end of the twentieth century show the remarkable quality of his life and his compassionate inner being All of MacDonald's books are now in print George MacDonald Exposes False Conflicts is the only book to bring the rich healing insights of nineteenth century George MacDonald into the present so that they interact with contemporary religious and scientific movements and conflicts MacDonald discovered that certain inherited beliefs contain hidden conflicts between Jesus and God between divine justice and divine mercy and between science and religion This book offers George MacDonald's powerful plausible and enlivening ways to think about these relationships **Auriculotherapy** Raphaël Nogier, 2008 The Continuation of Paul Nogier's Findings Auriculotherapy is based on proven correspondences between locations on the external ear and the internal organs and systems of the body The ear acts like an input/output terminal in direct contact with the central nervous system Information on viscerosomatic states can be accessed via visual clues skin electroconductivity and pressure sensitivity at specific points The first part of Raphaël Nogier's Auriculotherapy shows how acupuncture needles magnets infra red laser and electrical frequencies are used in sophisticated and powerful therapeutic interventions that can be highly effective at restoring the homeostatic balance necessary for physical health and mental/emotional well-being The second part introduces the principles and practice of Auriculomedicine a true frequency medicine that evolved from Dr Nogier's auriculotherapy his discovery of the VAS Vascular Autonomic Signal in the pulse and his consequent observations of the diagnostic and therapeutic properties of radiant light frequencies on the skin The material presented here builds on and updates the work of the author's father Dr Paul Nogier who scientifically explored and charted the auricular microsystems in the 1950s The latter is widely credited with re-introducing the practical application of auricular acupuncture to China in the 1960s where the technique had fallen into disuse The auricular location charts currently in use in China and the West are largely based on his findings A serviceable contemporary work for students of acupuncture as well as practitioners offering clear and practical information to be applied directly for the benefit of patients *Atlas of Auricular Therapy and Auricular Medicine* Bryan L. Frank, Nader E. Soliman, 2001 *Soliman's Auricular Therapy Textbook* Nader Soliman, 2008 In October 1968 Captain
