Social Media in Trinidad Jolynna Sinanan, 2017-11-21 Drawing on 15 months of ethnographic research in one of the most under developed regions in the Caribbean island of Trinidad this book describes the uses and consequences of social media for its residents Jolynna Sinanan argues that this semi urban town is a place in between somewhere city dwellers look down on and villagers look up to The complex identity of the town is expressed through uses of social media with significant results for understanding social media more generally Not elevating oneself above others is one of the core values of the town and social media becomes a tool for social visibility that is the process of how social norms come to be and how they are negotiated Carnival logic and high impact visuality is pervasive in uses of social media even if Carnival is not embraced by all Trinidadians in the town and results in presenting oneself and association with different groups in varying ways The study also has surprising results in how residents are explicitly non activist and align themselves with everyday values of maintaining good relationships in a small town rather than espousing more worldly or cosmopolitan values

What She Go Do Hope Munro, 2016-06-20 In the 1990s expressive culture in the Caribbean was becoming noticeably more feminine At the annual Carnival of Trinidad and Tobago thousands of female masqueraders dominated the street festival on Carnival Monday and Tuesday Women had become significant contributors to the performance of calypso and soca as well as the musical development of the steel pan art form Drawing upon ethnographic fieldwork conducted by the author in Trinidad and Tobago What She Go Do demonstrates how the increased access and agency of women through folk and popular musical expressions has improved intergender relations and representation of gender in this nation This is the first study to integrate all of the popular music expressions associated with Carnival calypso soca and steelband music within a single volume The book includes interviews with popular musicians and detailed observation of musical performances rehearsals and recording sessions as well as analysis of reception and use of popular music through informal

exchanges with audiences The popular music of the Caribbean contains elaborate forms of social commentary that allows singers to address various sociopolitical problems including those that directly affect the lives of women In general the cultural environment of Trinidad and Tobago has made women more visible and audible than any previous time in its history This book examines how these circumstances came to be and what it means for the future development of music in the region
