J. Williams, 2004-03-01 In the Western world cities have arguably never been more anxious practical anxieties about personal safety and metaphysical anxieties about the uncertain place of the city in culture are the small change of journalism and political debate Cities have long been regarded as problems in need of drastic solutions In this context the contemporary revival of city centres is remarkable But in a culture that largely fears the urban how can the contemporary city be imagined How is it supposed to be used or inhabited What does it mean Taking England since WWII as its principal focus this provocative and original book considers the Western city at a critical moment in its history **The city trip guide for Granollers(Spain) , The city trip guide for SantBoideLlobregat(Spain) , Production Urbanism** Dongwoo Yim, Rafael Luna, 2021-09-27 The Industrial Revolution caused a paradigm shift from an agrarian economy to a manufacturing economy giving birth to the industrial city City became synonymous with a concentration of factories causing unfiltered scenes between centres of production and urban dwellings The corrupted image of the city ultimately led to the displacement and separation of production away from residential zones in the 20th century However new innovative manufacturing technologies are allowing a coexistence between factories and dwellings through hybrid typologies that blend production back into the urban fabric This AD issue discusses the implications of the re emergence of production as an architectural and urban agenda through hybrid models that engage a new socioeconomic shift Given the contemporary circumstances of a global pandemic affecting global supply chains it is necessary to deliver a vision for a new productive urbanism that allows autonomous circular economies to flourish Our 21st century cities have an obligation to explore a new industrial revolution of shared economies that optimise the use of the legacy systems infrastructure and building stock Yet it is ultimately up to architecture to take arms in delivering new typologies Contributors Frank Barkow Michele Bonino and Maria Paola Repellino Kristiaan Borret Vicente Guallart Tali Hatuka Doojin Hwang Yerin Kang and Chihoon Lee Kengo Kuma Wesley Leeman Scott Lloyd and Alexis Kalagas Winy Maas DK Osseo Asare Marina Otero Verzier Nina Rappaport and Shohei Shigematsu Featured architects Barkow Leibinger DJH Architects Goldsmith Kengo Kuma Associates MVRDV OMA and TEN
