Bart De Ligt 1883-1938:

Bart de Ligt, 1883-1938, 1938 The Pacifist Impulse in Historical Perspective International Conference On The Pacifist Impulse I, Peter Brock, International Conference on the Pacifist Impulse in Historical perspec, 1996-01-01 This volume of twenty three essays appears in recognition of the emergence of peace history as a relatively new and coherent field of learning these essays were presented at an international conference The Pacifist Impulse in Historical Perspective Together the essays in this book explore the ideas and activities of persons and groups who for two millennia have rejected war and urged non violent means of settling conflicts **Challenge to Mars** Peter Brock, Thomas Paul Socknat, 1999-01-01 The

fourteen essays in Part I look at the interwar years which gave rise to an array of pacifist organizations both religious and humanist throughout Europe and North America Twelve essays in Part II deal with the brutal challenge to pacifist ideals posed by the Second World War and include a look at the fate of those courageous Germans who refused to fight for Hitler

The Routledge Handbook of Anarchy and Anarchist Thought Gary Chartier, Chad Van Schoelandt, 2020-12-30 This Handbook offers an authoritative up to date introduction to the rich scholarly conversation about anarchy about the possibility dynamics and appeal of social order without the state Drawing on resources from philosophy economics law history politics and religious studies it is designed to deepen understanding of anarchy and the development of anarchist ideas at a time when those ideas have attracted increasing attention The popular identification of anarchy with chaos makes sophisticated interpretations which recognize anarchy as a kind of social order rather than an alternative to it especially interesting Strong centralized governments have struggled to quell popular frustration even as doubts have continued to percolate about their legitimacy and long term financial stability Since the emergence of the modern state concerns like these have driven scholars to wonder whether societies could flourish while abandoning monopolistic governance entirely Standard treatments of political philosophy frequently assume the justifiability and desirability of states focusing on such questions as What is the best kind of state and What laws and policies should states adopt without considering whether it is just or prudent for states to do anything at all This Handbook encourages engagement with a provocative alternative that casts more conventional views in stark relief Its 30 chapters written specifically for this volume by an international team of leading scholars are organized into four main parts I Concept and Significance II Figures and Traditions III Legitimacy and Order IV Critique and Alternatives In addition a comprehensive index makes the volume easy to navigate and an annotated bibliography points readers to the most promising avenues of future research *Westerweel Group: Non-Conformist*

Resistance Against Nazi Germany Hans Schippers, 2019-02-19 The book about the Westerweel Group tells the fascinating story about the cooperation of some ten non conformist Dutch socialists and a group of Palestine Pioneers who mostly had arrived in the Netherlands from Germany and Austria the late thirties With the help of Joop Westerweel the headmaster of a Rotterdam Montessori School they found hiding places in the Netherlands Later on an escape route to France via Belgium

was worked out Posing as Atlantic Wall workers the pioneers found their way to the south of France With the help of the Armée Juive a French Jewish resistance organization some 70 pioneers reached Spain at the beginning of 1944 From here they went to Palestine Finding and maintaining the escape route cost the members of the Westerweel Group dear With some exceptions all members of the group were arrested by the Germans Joop Westerweel was executed in August 1944 Other members both in the Netherlands and France were sent to German concentration camps where some perished *Dutch Military Thought, 1919-1939* Wim Klinkert, 2022-08-01 Total War was the core concept around which military thought revolved during the interwar period Total War was also a multifaceted confusing concept that affected both civilian and military life How did small states conceive of their place in such a destructive war Did they close their eyes relying on international law to protect them or did they seek creative solutions This book examines how Dutch officers in the shadow of three great powers considered their military future analysing the impact of European military ideas on a small state This approach offers a new perspective on interwar dealing with assumptions about a new world war **Protest, Power, and Change** Christopher Kruegler, 1997 First Published in 1997 Routledge is an imprint of Taylor Francis an informal company

We are Anarchists M.P.T. Acharya, 2019-04-30 M P T Acharya 1887 1954 was a contemporary of Mohandas Gandhi during the Indian Independence Movement Despite political differences with Gandhi Acharya saw a tremendous anarchistic potential in the practice of non violent direct action *We Are Anarchists Essays on Anarchism Pacifism and the Indian Independence Movement* is the first collection of essays by M P T Acharya A transnational and revolutionary figure Acharya engaged in anticolonial activism across India Europe the United States and Russia He was also a prolific writer whose essays are testimony to a tireless agitator and intellectual Comprising fifty essays the collection opens a window onto the global reach of anarchism in the interwar period and beyond and enables a more nuanced understanding of Indian anticolonial struggles against oppressive state power be it imperialist Bolshevik or capitalist Ole Birk Laursen's biographical introduction and notes in this collection set the essays in their historical and political context and guide readers into Acharya's life and thoughts *Revolution, Counterrevolution and Assassination Through World War II* Robert C. Cottrell, 2024-12-06 Since the French Revolution the quest for revolutionary transformation and the fear of such change became deeply ingrained in the global landscape through World War II Modern revolutions inspired counterrevolutions that strove to turn back time to an allegedly purer finer more moral period than the upheaval and anarchy linked to a revolutionary epoch Revolutions often occurred through violence and entailed a disruption of existing social economic and political orders Counterrevolutions were equally guilty and frequently more so of horrific bloodletting in the name of restoring law and order often by shredding legal and ethical norms Drawing from a vast array of sources both primary and secondary this first of a two volume set presents a highly detailed narrative of an unholy trinity revolution counterrevolution and assassination Combining intellectual political social and cultural history this book highlights international protagonists movements and ideas supporting the radical or

reactionary upheaval of society and the means that have been used to do so **The Government of No One** Ruth Kinna, 2019-08-01 The standard book on anarchism for the twenty first century Written with brio quiet insight and clarity Carl Levy A magisterial study of the history and theory of one of the most controversial political movements Anarchism routinely gets a bad press It s usually seen as meaning chaos and disorder or even nothing at all And yet from Occupy Wall Street to Pussy Riot Noam Chomsky to David Graeber this philosophical and political movement is as relevant as ever Contrary to popular perception different strands of anarchism from individualism to collectivism do follow certain structures and a shared sense of purpose a belief in freedom and working towards collective good without the interference of the state In this masterful sympathetic account political theorist Ruth Kinna traces the tumultuous history of anarchism starting with thinkers and activists such as Peter Kropotkin and Emma Goldman and through key events like the Paris Commune and the Haymarket affair Skilfully introducing us to the nuanced theories of anarchist groups from Russia to Japan to the United States The Government of No One reveals what makes a supposedly chaotic movement particularly adaptable and effective over centuries and what we can learn from it
