Basic Accounting Principles for Lawyers C. Steven Bradford, 2008 **Basic Accounting Principles for Lawyers** C. Steven Bradford, Gary Adna Ames, 1997 *Basic Accounting for Lawyers* Richard W. Nicholson, 1999 **Daily Graphic** Ransford Tetteh, 2014-03-27 **In-House Lawyers' Ethics** Richard Moorhead, Steven Vaughan, Cristina Godinho, 2018-11-29 This book provides an empirically grounded in depth investigation of the ethical dimensions to in house practice and how legal risk is defined and managed by in house lawyers and others The growing significance and status of the role of General Counsel has been accompanied by growth in legal risk as a phenomenon of importance In house lawyers are regularly exhorted to be more commercial proactive and strategic to be business leaders and not mere lawyers but they are increasingly exposed for their roles in organisational scandals This book poses the question how far does going beyond being a lawyer conflict with or entail being more ethical It explores the role of in housers by calling on three key pieces of empirical research two tranches of interviews with senior in house lawyers and senior compliance staff and an unparalleled large survey of in house lawyers On the basis of this evidence the authors explore how ideas about in house roles shape professional logics how far professional notions such as independence play a role in those logics and the ways in which ethical infrastructure are managed or are absent from in house practice It concludes with a discussion of whether and how in house lawyers and their regulators need to take professionalism and professional ethicality more seriously Basic Accounting Principles for Lawyers C. Ferst, Stanley D. Ferst, 1965 ECKM2014-Proceedings of the 15th European conference on Knowledge Management Carla Vivas, 2014-10-01 The world economy in which we are living poses challenges that lead to a realization that more of the same will be difficult to sustain This provides an illustration that in order to create new or modified knowledge practices strengthen customer relationships and thus positively influence customer satisfaction organizations must be flexible in configuring combining knowledge and knowledge structures in a way that is appropriate for delivering value to the customer It must simultaneously develop effective strategies for updating the knowledge of its staff members necessary for underpinning the creation and delivery of appropriate knowledge services Thus unlearning forgetting becomes a critical means for organizational success The ECKM community of scholars has already initiated dialogue that links its particular strengths to innovation issues This conference aims to further that dialogue by attracting leading edge work that leverages the ECKM community s in depth understanding of learning and unlearning to better understand knowledge management Our aim is to stimulate breakthrough research streams linking learning unlearning and knowledge management How can organizations tailor use and extend techniques and tools from knowledge management for improving their business practices

and processes Building upon existing work on knowledge management KM and organizational learning the conference will promote interdisciplinary approaches from computer science and information systems business management and organization science as well as cognitive science Emphasis will be put on systematic learning from experience KM tools and KM success factors A special interest belongs to knowledge management initiatives which are lightweight i e do not place considerable additional burden on users and KM experts allow an incremental adoption i e do not require large up front investment before any return of investment is at least visible and are flexible regarding frequent changes in experts and topics Continuing the success of the ECKM conference series since 2000 the 2015 conference will provide an international communication forum bringing together academia and industry for discussing the progress made and addressing the challenges faced by continuous learning in knowledge intensive organizations
