Flesh and Word Sarah Künzler, 2016-08-22 Bodies and their role in cultural discourse have been a constant focus in the humanities and social sciences in recent years but comparatively few studies exist about Old Norse Icelandic or early Irish literature This study aims to redress this imbalance and presents carefully contextualised close readings of medieval texts The chapters focus on the role of bodies in mediality discourse in various contexts that of identity in relation to ideas about self and other of inscribed and marked skin and of natural bodily matters such as defecation urination and menstruation By carefully discussing the sources in their cultural contexts it becomes apparent that medieval Scandinavian and early Irish texts present their very own ideas about bodies and their role in structuring the narrated worlds of the texts The study presents one of the first systematic examinations of bodies in these two literary traditions in terms of body criticism and emphasises the ingenuity and complexity of medieval texts
