

Financial Accounting _ BAF3M1-02

Accounting is a system of dealing with financial data that provides information for decision making.

Why Study Accounting?

- Every business needs accounting
- Knowledge of accounting is essential for everyday life* like doing your taxes or preparing your personal budget
- If you own your OWN business you should have some* accounting background

Business Ethics and Accounting:

Accounting Scandals:

Accounting scandal occurs when accountants or senior executives alter accounting records for personal benefit.

Accounting information is used inside and outside of the business to make decisions. When accounting irregularities are uncovered, a **forensic accountant** investigates legal and financial documents to find evidence of tampering.

Embezzlement, a type of accounting fraud, happens when an accountant or senior executive creates false accounts and steals money for personal gain.

Business owners rely on outside accountants, **auditors**, to check and report on the validity of financial records.

Chapter 1: Users of Accounting Information:

Accountants

- Accountants – CPA (**Chartered Professional Accountant**)
- Help to make financial decisions in the business
- Create financial statements like balance sheet and income statements
- Examine accounting mistakes and try to fix them

Owners

- The owner of a business is interested in making a yearly profit and increasing the wealth of the business.
- Financial information is used for planning (budgeting), controlling costs, and decision making (For example: deciding to buy new equipment, expand the company etc).
