restriction is a serious issue in this population Nutritional exposures during critical period of life influence the individual s risk of disease throughout life Nutritional deficit and poor growth are associated with long term neurodevelopmental impairment short stature and metabolic disorders in extremely preterm neonates Optimising nutrition in the early postnatal life of the preterm neonate is therefore a priority However this is easier said than done considering the frequency of feed intolerance fear of necrotising enterocolitis and the hesitancy in adopting an aggressive approach to parenteral nutrition in this population Some of the finest researchers in the field have come together to provide the clinical perspective on the A to Z of nutrition in the preterm neonate in simple and clear fashion in this book

New trends for innovation in the Mediterranean animal production R. Bouche,A. Derkimba,F. Casabianca,2012-03-26 The Mediterranean area shows a great diversity of livestock systems depending on local resources and traditions but also on the networking space where informational resources are available for producers During the last decades a lot of innovations have been conceived or introduced in the Mediterranean area allowing livestock systems to remain competitive The book looks at two main issues firstly it gives an updated review on the main innovations that significantly changed the activities of livestock production in the Mediterranean area in the recent past Secondly the focus lies on the extent to which these innovations improve the efficiency ensure the socio cultural basis or reduce the environmental impact of livestock systems One major finding is a new vision of innovating systems based on the distinction between regulated innovation when aims are fixed and innovative design when aims are questioned Innovations reported in the book are dealing with a set of concerns They concern the production techniques the work organization the equipment and infrastructures the collective features for selection reproduction feeding or sanitary devices They also concern the local organization such as product labelling new dynamics around local breeds collective rules for supply basin or approaches of new products for new markets More recently some innovations focus on environmental impacts of livestock production due to an increasing consciousness of those kinds of problems In the final part of the book a round table copes with a crucial question are traditions in Mediterranean livestock activities to be considered an obstacle or a source of innovation This book provides a set of updated information and knowledge useful for researchers students extension services and policy makers in the field of animal science
