Buffalo Postcard History:

Berrien County in Vintage Postcards Sherry Arent Cawley,2000 As one of the earliest developed areas of the state of Michigan Berrien County has a rich history that appeals to the locals as well as the tourists who still enjoy the many treasures to be found there Author Sherry Arent Cawley has compiled over 200 vintage postcards chronicling the life and times of this historic area The historic Benton Harbor Fruit Market Silver Beach the mineral baths at the Whitecomb Hotel and the House of David are all featured here in vivid postcards some never before published with accompanying captions Images of Grand Beach Niles New Buffalo Paw Paw Lake and Berrien Springs offer readers a nostalgic glimpse into a Berrien County of yesteryear [Guide to Photographs in the Western History Collections of the University of Oklahoma](#) Kristina L. Southwell,2014-01-24 Begun in 1927 by University of Oklahoma history professor Edward Everett Dale the Western History Collections gathers and preserves rare research materials for scholars in anthropology Native American studies Oklahoma history and the history of the American West This guide has been compiled to make the photographs in the collections more accessible The second edition adds descriptions of 165 new collections comprising 159 000 photographs The 826 photograph collections that this guide thus details encompass Native American culture frontier and pioneer life in Oklahoma and Indian territories Wild West shows the range cattle industry the petroleum industry and gunfighters outlaws and lawmen New additions include the Lucille Clough Collection of 1 800 prints postcards and stereograph cards of American Indians and Alaska Natives and First Peoples of Canada *The Oxford History of Popular Print Culture* Gary Kelly,Joad Raymond,Christine Bold,2011 Planned nine volume series devoted to the exploration of popular print culture in English from the beginning of the sixteenth century to the present **Railroad Postcards of Yellowstone** Frank Ferris,2015-10-12 The fastest way to travel long distances in the beginning of the 20th century was by railroad Railroad companies competed to attract business and vacationing travellers by advertising in brochures and issuing postcards The postcards included railroad logos and descriptions of Western adventures that travellers would experience by booking with a particular rail line The Northern Pacific Railroad and Chicago Milwaukee the National Park Service data show the YNP attendance more than doubled in that year Both the Union Pacific Railroad and Burlington Route provided high quality postcards to promote their routes to visit YNP The Burlington Route and Northern Pacific Railroad included American Indian related postcards for diversity **American National Pastimes - A History** Mark Dyreson,Jaime Schultz,2016-04-14 When the colonies that became the USA were still dominions of the British Empire they began to imagine their sporting pastimes as finer recreations than even those enjoyed in the motherland From the war of independence and the creation of the republic to the twenty first century sporting pastimes have served as essential ingredients in forging nationhood in American history This collection gathers the work of an all star team of historians of American sport in order to explore the origins and meanings of the idea of national pastimes of a nation symbolized by its sports These wide ranging essays analyze the claims of particular sports to

national pastime status from horse racing hunting and prize fighting in early American history to baseball basketball and football more than two centuries later These essays also investigate the legal political economic and culture patterns and the gender ethnic racial and class dynamics of national pastimes connecting sport to broader historical themes American National Pastimes chronicles how and why the USA has used sport to define and debate the contours of nation This book was published as a special issue of the International Journal of the History of Sport *Postcard Views, a Walk Down Main Street Buffalo, New York, Circa 1910* Joseph F. Bieron, Paul J. McCarthy, 2007-05 In 1900 Buffalo was the eighth largest city in the U S As the world ushered in the new century Buffalo celebrated its status as a vibrant center for transportation commerce and industry and became home for thousands of immigrants who chose to begin their new lives in this promising City by the Lake Postcards erupted on the scene around 1907 a short lived product of the collision of emerging print technologies and existing postal regulations This lovely book offers a fascinating and historically accurate glimpse of Buffalo s Main Street at the turn of the last century through postcard scenes These views of downtown reveal Buffalo as one of the most progressive and vibrant cities of the time How fitting that postcards made popular during Buffalo s heyday should pave the way through the city s illustrious past Perhaps they also provide valuable clues for directions in which Buffalo s beautiful downtown could and should develop a century hence rising from the ashes to emerge once again as a vital vibrant hub for the entire region

Buffalo Stephen G. Myers, 2012 Until the opening of the Erie Canal in 1825 Buffalo was a sleepy town Access to an abundant supply of fresh water led to a thriving farming industry provided a means of transportation and powered mills and factories Adding to the hustle and bustle of the city s busy new harbor was Joseph Dart s local invention of the grain elevator Buffalo s location on Lake Erie and its growth during the second industrial revolution helped the city become the eighth largest in America and established it as the Queen City It has been home to future presidents and inventors who have influenced millions The city s original radial street design the layout of its parks and its majestic architecture make Buffalo fascinating and unique The Routledge Companion to Big History Craig Benjamin, Esther Quaedackers, David Baker, 2019-08-01 The Routledge Companion to Big History guides readers through the variety of themes and concepts that structure contemporary scholarship in the field of big history The volume is divided into five parts each representing current and evolving areas of interest to the community including big history s relationship to science social science the humanities and the future as well as teaching big history and little big histories Considering an ever expanding range of theoretical pedagogical and research topics the book addresses such questions as what is the relationship between big history and scientific research how are big historians working with philosophers and religious thinkers to help construct meaning how are leading theoreticians making sense of big history and its relationship to other creation narratives and paradigms what is little big history and how does big history impact on thinking about the future The book highlights the place of big history in historiographical traditions and the ways in which it can be used in education and public discourse across disciplines and at

all levels A timely collection with contributions from leading proponents in the field it is the ideal guide for those wanting to engage with the theories and concepts behind big history

Postcards from Congo Edmund Trueman, 2022-10-25 The Democratic Republic of Congo the second largest country in Africa by area has had a fractured and bloody history variously undone by decades of colonialism civil war corruption and totalitarian rule The country has played a crucial role in the economic growth of the Global North but in doing so has suffered immensely So many seminal advances in technology were possible only through the extraction of materials from Congo from rubber to copper to uranium to coltan In each case the Congolese people paid a great price exacerbated by the weight of colonial exploitation and dictatorial rule In this comprehensive graphic history author and illustrator Edmund Trueman explores the fractious story of Congo Through deft illustrations and storytelling Congo s history not widely known to Western readers comes vividly alive We see how Congolese musicians have spread their language across Africa by creating some of the most popular music on the continent and how Congolese women have spent decades sidestepping sexist legislation to become leaders in local business From resistance against colonialism to the fight for independence and the self determination to make a life in an almost stateless place Postcards from Congo depicts how the Congolese people have resisted and survived in order to take control of their lives and the country they call home Includes a foreword by historian Didier Gondola Professor of African History at Johns Hopkins University This publication meets the EPUB Accessibility requirements and it also meets the Web Content Accessibility Guidelines WCAG AA It is screen reader friendly and is accessible to persons with disabilities A book with many images which is defined with accessible structural markup This book contains various accessibility features such as alternative text for images table of contents page list landmark reading order and semantic structure

US Environmental History John Wills, 2012-11-28 Environmental issues in the USA are more important now than ever before The devastation inflicted by Hurricane Katrina growing evidence of global warming and a struggling national energy supply highlight the unfolding crisis Environmental fears translate into US automobile giants plying consumers with fuel efficient cars in the MPG Lounge of sales Politicians talk of energy independence and getting tough on polluters Fears gravitate around a fast approaching doomsday scenario an environmental endgame of wholesale collapse unless something is done Yet fears of doomsday are nothing new John Wills shows how the current environmental crisis is firmly rooted in the past As well as explaining how today s problems are manifestations of older systems of economics culture and politics he also argues that America has already witnessed a range of doomsday scenarios both real and imagined He identifies and explores a cast of doomsday landscapes that includes the Battle of the Wilderness in Virginia the Santa Barbara Oil Spill the Fable for Tomorrow town featured in Rachel Carson s Silent Spring 1962 and Nevada s Doom Towns 1 and 2 blown apart by atomic testing in the 1950s He reflects on contemporary ruminations over whether nature as a category endures given both the rising contamination of the US landscape and consumer proclivity for celebrating fake mementos of the outdoors such as plastic lawn flamingos and

artificial plants And most significantly he poses the question of whether Americans have been inviting doomsday through their long term environmental actions
