Standard Operating Procedure for System Firmware Update

You may update the firmware of your Transformer using **FOTA Update** or the **Firmware Update Launcher**. Choose the method that suits you best.

- **FOTA (Firmware On-The-Air) Update**

When your Transformer is connected to the Internet, you will receive notification from ASUS if new system firmware update is available. You may directly update your Transformer over the air to the latest firmware version.

You must have a Google account logged in and an Internet connection to use FOTA Update.

- **Firmware Update Launcher**

If there is no available Internet connection for your Transformer, you may download the Firmware Update Launcher from ASUS support site using a computer and run manual firmware update.

You must have a micro SD card to run the Firmware Update Launcher.

Using FOTA Update

To use FOTA Update

1. When a new firmware update service is available, you will see a message in the notification area at the lower right corner of the screen. Tap the arrow to start firmware update.
