The Rat People Patrick Saint-Paul,2020-06-23 In a relatively short amount of time China has become the second largest economy in the world and is soon poised to overtake the US In 1978 when China introduced its economic reforms its GDP was 214 billion in 2019 it is estimated to increase to 14 trillion But the country s rapid growth was achieved on the backs and shoulders of its workforce many of whom were peasant farmers turned into the mingong urban migrant workers celebrated by Mao and credited with helping China achieve its economic miracle Now a million of them and their descendants live underground in Beijing under inhuman conditions where there is no light or water and little sanitation Author Patrick Saint Paul spent two years living among the rat people shizu of Beijing in a network of deep tunnels and 20 000 former bomb shelters built during the Cold War The mingong come to Beijing from all parts of the country in search of jobs and a better life but they are unable to afford their own homes on their meager salaries For them China s dream of prosperity for all is a bitter fallacy In The Rat People Saint Paul brings the individual stories of the shizu to
