Bonds Of Affection Bonds Of Affection:

Bonds of Affection Matthew S. Holland, 2007-10-04 Notions of Christian love or charity strongly shaped the political thought of John Winthrop Thomas Jefferson and Abraham Lincoln as each presided over a foundational moment in the development of American democracy Matthew Holland examines how each figure interpreted and appropriated charity revealing both the problems and possibilities of making it a political ideal Holland first looks at early American literature and seminal speeches by Winthrop to show how the Puritan theology of this famed 17th century governor of the Massachusetts Colony he who first envisioned America as a City upon a Hill galvanized an impressive sense of self rule and a community of care in the early republic even as its harsher aspects made something like Jefferson's Enlightenment faith in liberal democracy a welcome development Holland then shows that between Jefferson's early rough draft of the Declaration of Independence and his First Inaugural Jefferson came to see some notion of charity as a necessary complement to modern political liberty However Holland argues it was Lincoln and his ingenious blend of Puritan and democratic insights who best fulfilled the promise of this nation's bonds of affection With his recognition of the imperfections of both North and South his humility in the face of God's judgment on the Civil War and his insistence on charity for all including the defeated Confederacy Lincoln personified the possibilities of religious love turned civic virtue Weaving a rich tapestry of insights from political science and literature and American religious history and political theory Bonds of Affection is a major contribution to the study of American political identity Matthew Holland makes plain that civic charity while commonly rejected as irrelevant or even harmful to political engagement has been integral to our national character The book includes the full texts of Winthrop's speech A Model of Christian Charity Jefferson's rough draft of the Declaration and his First Inaugural and Lincoln's Second Inaugural

The Bonds of Love Gordon Mursell, 2021-12-03 St Peter Damian 1007-1072 is an exceptional example of a paradox that is found in many saints and thinkers through the ages St Jerome St Bernard St Bridget of Sweden St Teresa of Avila and Thomas Merton come to mind of a lifelong tension between two competing vocations the call to solitude and holiness and the call to prophetic social and ecclesial engagement The author has explored this tension throughout his adult life both in his published work and in his own life as an Episcopalian Anglican priest and later bishop Damian's *The Book of The Lord be with you* is a profound exploration of the spirituality of solitude whereas his *Book of Gomorrah* is an intense attack on clerical sexual abuse which has helped to give Damian a new recent prominence in the light of the huge challenges facing the Church today *The Bonds of Love* shows that the paradox at the heart of Damian's life and everything he cared about was rooted in the remarkable theology of love which finds expression across the whole of his work and gives it both coherence and dynamism His life and spirituality are of far more than academic interest and will make a major contribution not only to those committed to ecclesial reform and renewal but to all who struggle to live with the kind of competing tensions that made St Peter Damian who he was

The Bond of Love: Catholic Teaching on Marriage & Sexual Ethics Willem Jacobus Cardinal Eijk,2025-09-10 Contemporary attitudes toward marriage family life and human sexuality have undergone profound changes since the mid twentieth century spurred by a host of social and cultural factors Large segments of the population in the West now hold views on marriage and sexual ethics that are very different from the values and norms taught by the Church Indeed Catholic teaching on the truth of marriage and human sexuality is open to strong criticism including among groups of Catholics and seems at best poorly understood In *The Bond of Love* Willem Jacobus Cardinal Eijk provides a comprehensive and unflinching account of the Church s teaching on marriage and sexual ethics dispelling misconceptions and elucidating its truth with grace and clarity As he demonstrates far from being a set of arbitrary rules that constrain human freedom this teaching is instead a deep wisdom for human flourishing

anchored in the truth of God and man divinely revealed within Scripture Tradition and the Gospel Eijk first locates Catholic teaching on marriage and sexuality in relation to the currently dominant views in Western society He follows this with an exposition of the fundamental starting point of the Church's teaching on the nature of marriage and sexuality rooted in theological anthropology Next discussed is the virtue of chastity the integration of the sexual faculties into the personality and what it requires of both married and unmarried persons The volume concludes by addressing practices and circumstances that violate the essence of marriage This powerful witness to the truth and beauty of Catholic teaching on marriage and sexual ethics is a vital resource for pastors teachers and all of the Church's faithful striving to live in the love and communion that is grounded in Christ
