Between Species Celebrating The Dolphin Human Bond:

Between Species Toni Frohoff, Brenda Peterson, 2003 Since ancient times the kinship between dolphins and humans has been celebrated across cultures and continents in myth art literature and science Only recently however have we gone beyond our own view of this interspecies connection and begun to ask What might this bond look like from the dolphins perspective This anthology brings together for the first time eminent scientists and gifted writers to help shed light on this intriguing question Selections range from tales of transforming dolphin encounters to views on how to protect cetaceans and their habitats and from poems honoring dolphins to provocative critiques of swim with the dolphins programs and acoustic pollution From publisher description [Rekindling the Waters](#) Leah Lemieux, 2009 This book is essential reading for anyone who loves dolphins It reveals the truth about swimming with dolphins **Dolphin Mysteries** Kathleen M. Dudzinski, Toni Frohoff, 2008-10-14 Dolphins have fascinated humans for millennia giving rise to an abundance of stories and myths about them yet the actual details of their lives in the sea have remained elusive In this enthralling book Kathleen M Dudzinski and Toni Frohoff take us into the dolphins aquatic world to witness firsthand how they live their lives communicate and interact with one another and with other species including people Kathleen M Dudzinski and Toni Frohoff are scientists who have collectively dedicated more than 40 years to studying dolphins beneath the ocean s surface frequently through a close up underwater lens Drawing on their own experiences and on up to the minute research the authors show that dolphins are decidedly not just members of a group but distinct individuals able to communicate with one another and with humans Dudzinski and Frohoff introduce a new way of looking at and listening to the vocabulary of dolphins in the sea and they even provide an introductory dolphin dictionary listing complex social signals that dolphins use to share information among themselves and with people Unveiling an intimate and scientifically accurate portrait of dolphins this book will appeal to everyone who has wanted a closer glimpse into the hearts and minds of these amazing creatures *Death at SeaWorld* David Kirby, 2025-09-23 From the New York Times bestselling author of Evidence of Harm and Animal Factory a groundbreaking scientific thriller that exposes the dark side of SeaWorld America s most beloved marine mammal park Death at SeaWorld centers on the battle with the multimillion dollar marine park industry over the controversial and even lethal ramifications of keeping killer whales in captivity Following the story of marine biologist and animal advocate at the Humane Society of the US Naomi Rose Kirby tells the gripping story of the two decade fight against PR savvy SeaWorld which came to a head with the tragic death of trainer Dawn Brancheau in 2010 Kirby puts that horrific animal on human attack in context Brancheau s death was the most publicized among several brutal attacks that have occurred at Sea World and other marine mammal theme parks Death at SeaWorld introduces real people taking part in this debate from former trainers turned animal rights activists to the men and women that champion SeaWorld and the captivity of whales In section two the orcas act out And as the story progresses and orca attacks on trainers become increasingly violent the warnings of Naomi Rose and

other scientists fall on deaf ears only to be realized with the death of Dawn Brancheau Finally he covers the media backlash the eyewitnesses who come forward to challenge SeaWorld s glossy image and the groundbreaking OSHA case that challenges the very idea of keeping killer whales in captivity and may spell the end of having trainers in the water with the ocean s top predators

Are Dolphins Really Smart? Justin Gregg,2013-09-26 How intelligent are dolphins Is their communication system really as complex as human language And are they as friendly and peaceful as they are made out to be The Western world has had an enduring love affair with dolphins since the early 1960s with fanciful claims of their healing powers and super intelligence Myths and pseudoscience abound on the subject Justin Gregg weighs up the claims made about dolphin intelligence and separates scientific fact from fiction He puts our knowledge about dolphin behaviour and intelligence into perspective with comparisons to scientific studies of other animals especially the crow family and great apes He gives fascinating accounts of the challenges of testing what an animal with flippers and no facial expressions might be animal behaviour Gregg challenges many of the widespread beliefs about dolphins while also inspiring the reader with the remarkable abilities common to many of the less glamorized animals around us such as chickens

Whale-watching James Higham,Lars Bejder,Rob Williams,2014-03-27 A critical insight into the diverse socio cultural political economic and ecological contexts of the global whale watching industry
