Rosicrucianism Renewed Rudolf Steiner, 2006-03 After Rudolf Steiner had left us in the body the gifts of the spirit that were offered by him in such overflowing measure could not continue It must now happen that a community of human beings takes over the results of his spiritual research takes them in such a way that they remain alive in the community People must come together in anthroposophic work united in such a way that Anthroposophy comes into its own Carl Unger Oct 29 1928 This volume provides perhaps the most comprehensive and profound exegesis of Rudolf Steiner's Anthroposophy especially his book titled Anthroposophical Leading Thoughts That book provides Steiner's final and most complete explanation of his Spiritual Science through brief aphoristic thoughts or meditations on the profound esoteric meaning of the modern spiritual path he called Anthroposophy In The Language of the Consciousness Soul Carl Unger unfolds and expands Rudolf Steiner's leading thoughts in 78 brief meditative chapters to help the reader comprehend the deeper meaning behind the Leading Thoughts Unger helps us see how Steiner created a mandala like image of Anthroposophy revealing an ever expanding cosmology and epistemology that goes far beyond mere philosophy or a belief system to a practical path of spiritual investigation and knowledge for modern humankind Rudolf Steiner had this to say about Carl Unger Dr Carl Unger for many years past has always been the most industrious and devoted collaborator in the anthroposophic movement At an early date Dr Unger saw that Anthroposophy before all needs a strong foundation of the theory of knowledge With a deep understanding he took up what I myself many years ago was able to give in my books Goethe's Theory of Knowledge Truth and Knowledge and Intuitive Thinking as a Spiritual Path A Philosophy of Freedom he developed independently what I had intimated Supported by mental discernment his goal was to see through the nature of the human process of knowledge in a clear analysis and from that to form its true picture Dr Unger is not dialectical but an observer of empirical facts This is why through the years he has been able to give results of the highest value showing how the process of knowledge in ordinary consciousness produces always and everywhere out of itself the impulses to anthroposophic investigation Moreover Dr Unger's method of thinking trained through technical problems is free from subjective vagueness and thus his scientific collaboration in Anthroposophy is the most important that we can have The Language of the Consciousness Soul is an indispensable guidebook for group study and for individuals who wish to penetrate the depths of Anthroposophy and apply its principles both inwardly and to daily life This volume is an edited translation by Effie Grace Wilson of *Aus der Sprache der Bewusstseinsseele Unter Zugrundelegung der Leitsätze Rudolf Steiners*

Alchymy Hermann Beckh, 2019-10-23 As a practising Christian priest Hermann Beckh was profoundly aware that the mystery of substance its transmutation in the cosmos and the human being was a mystical fact to be approached with the greatest reverence requiring at once ever deepening scholarship and meditation He viewed chemistry as a worthy but

materialistic science devoid of spirit while the fullness of spiritual physical nature could be approached by what he preferred to call chymistry or alchymy thereby taking in millennia of spiritual tradition In consequence Beckh s *Alchymy The Mystery of the Material World* is not limited to the conventional workings of Western alchemy nor to what can be found in the Bible from Genesis to Revelation although he does unveil hidden riches there Neither should Beckh be considered only as a learned Professor with impeccable academic qualifications and European wide recognition Beckh writes about such topics as Isis the Golden Fleece traditional fairy stories and Wagner s Parsifal in a way that enables the reader to catch glimpses of the Mystery of Substance to share the writer s authentic experience of the divine substantia the living reality of Christ in the world Beckh s *Alchymy* set an entirely new standard and went on to become his most popular publication This is the first time that it has been translated into English along with updated footnotes making his ideas and insights accessible to a wide readership In addition this edition features translations of Beckh s *The New Jerusalem* where theology could best be expressed in verse his exemplary essay on Snow white observations on Allerleirauh and a substantial excerpt from Gundhild Ka er Bock s biography of Beckh
