Beyond The Veil The Adventures Of An American Doctor In Saudi Arabia:

Beyond the Veil Seymour Jerome Gray, 1983 Experiences and observations of a Boston doctor who spent two years as the head of Saudi Arabia's most modern hospital **A Miracle and a Privilege** Francis D. Moore, M.D., 1995-05-17 Francis Moore entered Harvard Medical School in September of 1935 seven years before penicillin became available During his remarkable career in surgery research and education Moore has witnessed and contributed to some of the most important biomedical advances of the century and his students now practice surgery worldwide In this autobiography he brings humor and warmth to the story of a lifetime at the forefront of medicine In this fascinating book Moore describes his work in radioactive isotope research burn therapy breast cancer treatment transplant science and understanding the process of convalescence Moore's colleagues have included such medical pioneers as George Thorn David Hume Thomas Starzl John Gibbon Steven Rosenberg Harold Urey and Nobel Prize winner Joseph Murray and he recounts the setbacks and victories of their work For example he writes of the adventure he had with Charles Hufnagel in which 25 dogs implanted with Hufnagel's experimental heart valves made their escape into the Connecticut countryside and had to be recovered by dog control officers wielding stethoscopes Yet Moore recalls with equal clarity the young mother who gave him a silver dollar for delivering her baby the husband who begged that his ailing wife be allowed to die with dignity and the desperately sick patients who made themselves available for experimental surgery and treatment In one of his early operations he relieved the pain anguish and threat to a wonderful small boy by removing the boy's diseased appendix He describes this capability as a miracle and a privilege The book includes a gripping account of the aftermath of the Cocoanut Grove nightclub fire in Boston in 1942 when Moore learned the horrific details of death by fire He recounts both his experience with M A S H units and battalion aid stations in Korea and the sudden request from the U S State Department that resulted in his treating King Ibn Saud of Saudi Arabia Moore's life story reflects his serious commitment to human well being as well as his appreciation for the wonder of human life Physicians medical students and all readers alike will find this book informative and inspirational Francis Daniels Moore M D is Moseley Professor of Surgery Emeritus Harvard Medical School and Surgeon in Chief Emeritus Peter Bent Brigham Hospital Boston **Inside The Mirage** Thomas Lippman, 2008-11-10 The relationship between the United States and Saudi Arabia has always been a marriage of convenience not affection In a bargain cemented by President Roosevelt and Saudi Arabia's founding king in 1945 Americans gained access to Saudi oil and the Saudis sent the dollars back with purchases of American planes American weapons American construction projects and American know how that brought them modernization education and security The marriage has suited both sides But how long can it last In *Inside the Mirage* veteran Middle East journalist Thomas W Lippman shows that behind the official proclamations of friendship and alliance lies a complex relationship that has often been strained by the mutual aversion of two very different societies Today the U S Saudi partnership faces its greatest challenge as younger Saudis less enamored of America rise to prominence and

Americans scorched by Saudi based terrorism question the value of their ties to the desert kingdom With so much at stake for the entire ever volatile Middle East this compelling and absolutely necessary account brings the light of new research onto the relationship between these two countries and the future of their partnership In Her Lifetime Committee to Study Female Morbidity and Mortality in Sub-Saharan Africa, Institute of Medicine, 1996-03-20 The relative lack of information on determinants of disease disability and death at major stages of a woman's lifespan and the excess morbidity and premature mortality that this engenders has important adverse social and economic ramifications not only for Sub Saharan Africa but also for other regions of the world as well Women bear much of the weight of world production in both traditional and modern industries In Sub Saharan Africa for example women contribute approximately 60 to 80 percent of agricultural labor Worldwide it is estimated that women are the sole supporters in 18 to 30 percent of all families and that their financial contribution in the remainder of families is substantial and often crucial This book provides a solid documentary base that can be used to develop an agenda to guide research and health policy formulation on female health both for Sub Saharan Africa and for other regions of the developing world This book could also help facilitate ongoing collaboration between African researchers on women's health and their U S colleagues Chapters cover such topics as demographics nutritional status obstetric morbidity and mortality mental health problems and sexually transmitted diseases including HIV **ISLAM** Hadi F. Eid, 2013-03-07 Islam The Alien Faith Hadi F Eid At the dawn of the third millennium Muslims are searching for their identity amid a swelling globalization The world is divided into two major camps the bursting civilizations that are reaching out with scientific and cultural expressions and the other camps that are flinching with social crises and religious revulsions The gap widened between the actor who won all opportunities and the reactor who lost all initiatives This book is an on the fence historical and factual penetration to Islam and an essay to rid the besieged Muslim mind from outdated postulations and unleash it to openness and sincerity Readers will encounter poignant facts and candid stories aimed at punching many tyrannical codes as the Kaaba idols were hit earlier by the axe of Muhammad **Saudi Arabia** Frank Clements, 1988

The Middle East Outreach Council Presents Middle East Materials for Teachers, Students, Non-specialists Catherine E. Jones, 1988 **Choice**, 1991 Whitaker's Cumulative Book List, 1984 Kirkus Reviews, 1982 Adult books are categorized by genre i.e. fiction mystery science fiction nonfiction Along with bibliographic information the expected date of publication and the names of literary agents for individual titles are provided Starred reviews serve several functions In the adult section they mark potential bestsellers major promotions book club selections and just very good books in the children's section they denote books of very high quality The unsigned reviews manage to be discerning and sometimes quite critical
