WILDLIFE IDENTIFICATION

REQUIREMENTS

HORNED

ANTLERED

Big Game Ungulates

Ungulates are also referred to as "hoofed mammals" or evenhounds, and have large animals with two chambers. They need to chew their food twice to digest it. They chew their food the first time when feeding, and then later, when they are resting, they regurgitate the food and chew it a second time.

Ungulates in this province are divided into two major divisions - horned animals and antlered animals. Horned ungulates include bighorn sheep, mountain goats and caribou, while antlered animals include elk, deer, moose and reindeer.
