Multimodal Usability Niels Ole Bernsen, Laila Dybkjær, 2009-10-03 This preface tells the story of how Multimodal Usability responds to a special challenge Chapter 1 describes the goals and structure of this book The idea of describing how to make multimodal computer systems usable arose in the European Network of Excellence SIMILAR Taskforce for creating human-machine interfaces SIMILAR to human-human communication 2003-2007 www.similar.cc SIMILAR brought together people from multimodal signal processing and usability with the aim of creating enabling technologies for new kinds of multimodal systems and demonstrating results in research prototypes Most of our colleagues in the network were in fact busy extracting features and figuring out how to demonstrate progress in working interactive systems while claiming not to have too much of a notion of usability in system development and evaluation It was proposed that the authors support the usability of the many multimodal prototypes underway by researching and presenting a

methodology for building usable multimodal systems We accepted the challenge first and foremost no doubt because the formidable team spirit in SIMILAR could make people accept outrageous things Second thing worked for nearly two decades on making multimodal systems usable we were curious at the opportunity to try to understand what happens to traditional usability work that is work in human computer interaction centred around traditional graphical user interfaces GUIs when systems become as multimodal and as advanced in other ways as those we build in research today

Matters of the Heart Monica L. Marks Ph.D.,2015-09-18 This book is a qualitative study on the influence of race and culture in the instructional planning within classrooms in a suburban school district The study was designed using a focus group of teachers in grades four through eight who demonstrated successful growth for African American students using growth measures on state assessments The focus group members met to answer predetermined research questions that tied to exploring the role of race and culture in the classroom The group met regularly over a period of time and conducted discussions centered around activities to help generate reflective thinking on instructional pedagogy This book provides readers with insight into the successful practices used when working to develop meaningful relationships using culturally responsive teaching practices

Why Afterschool Matters Ingrid A. Nelson,2016-12-08 Increasingly educational researchers and policy makers are finding that extracurricular programs make a major difference in the lives of disadvantaged youth helping to reduce the infamous academic attainment gap between white students and their black and Latino peers Yet studies of these programs typically focus on how they improve the average academic performance of their participants paying little attention to individual variation Why Afterschool Matters takes a different approach closely following ten Mexican American students who attended the same extracurricular program in California then chronicling its long term effects on their lives from eighth grade to early adulthood Discovering that participation in the program was life changing for some students yet had only a minimal impact on others sociologist Ingrid A Nelson investigates the factors behind these very different outcomes Her research reveals that while afterschool initiatives are important they are only one component in a complex network of school family community and peer interactions that influence the educational achievement of disadvantaged students Through its detailed case studies of individual students this book brings to life the challenges marginalized youth en route to college face when navigating the intersections of various home school and community spheres Why Afterschool Matters may focus on a single program but its findings have major implications for education policy nationwide
