Guide for Conducting Forensic Investigations of Highway Pavements (with supplemental material on CD-ROM) Gonzalo R. Rada, 2013 TRB's National Cooperative Highway Research Program Report 747 *Guide for Conducting Forensic Investigations of Highway Pavements* explores a process for conducting forensic investigations of pavements that is designed to help understand the reasons behind premature failures or exceptionally good performance. The process also allows for the collection of data for use in developing or calibrating performance prediction models. The report includes example forms and checklists for use during the conduct of an investigation. These forms can be modified to suit the particular requirements and procedures for the agency. The example forms are included with the print version of the report in CD-ROM format.
