Asian Art Blackwell Anthologies In Art History No 2:

Māyā in the Bhāgavata Purāṇa Gopal K. Gupta, 2020-10-21 The idea of Māyā pervades Indian philosophy. It is enigmatic, multivalent and foundational, with its oldest referents found in the Rig Veda. This book explores Māyā's rich conceptual history and then focuses on the highly developed theology of Māyā found in the Sanskrit Bhāgavata Purāṇa, one of the most important Hindu sacred texts. Gopal K. Gupta examines Māyā's role in the Bhāgavata's narratives, paying special attention to its relationship with other key concepts in the text, such as human suffering, dukṣa, devotion, bhakti, and divine play. In the Bhāgavata, Māyā is often identified as the divine feminine and has a far-reaching influence. For example, Māyā is both the world and the means by which God creates the world, as well as the facilitator of God's play, paradoxically revealing him to his devotees by concealing his majesty. While Vedic philosophy typically sees Māyā as a negative force, the Bhāgavata affirms that Māyā also has a positive role, as Māyā is ultimately meant to draw living beings toward Krishna and intensify their devotion to him.

Transcending Patterns Mariachiara Gasparini, 2019-11-30 In *Transcending Patterns: Silk Road Cultural and Artistic Interactions through Central Asian Textiles*, Mariachiara Gasparini investigates the origin and effects of a textile-mediated visual culture that developed at the heart of the Silk Road between the seventh and fourteenth centuries. Through the analysis of the Turfan Textile Collection in the Museum of Asian Art in Berlin and more than a thousand textiles held in collections worldwide, Gasparini discloses and reconstructs the rich cultural entanglements along the Silk Road between the coming of Islam and the rise of the Mongol Empire from the Tarim to the Mediterranean Basin. Exploring in detail the iconographic transfer between different agents and different media, from Central Asian caves to South Italian churches, the author depicts and describes the movement and exchange of portable objects, such as sculpture, wall painting, and silk fragments, across the Asian continent and across the ages. Gasparini's history offers critical perspectives that extend far beyond an outmoded notion of Silk Road studies. Her cross-media work shows readers how certain material cultures are connected not only by the physical routes they take but also because of the meanings and interpretations these objects engage in various places. *Transcending Patterns* is at once art history, material and visual cultural history, Asian studies, conservatory studies, and linguistics.
