This book offers both a theoretical framework for considering app affordances and practical ways to use apps to build students' disciplinary literacies and to foster a wide range of literacy practices. *Using Apps for Learning Across the Curriculum* presents a wide range of different apps and also assesses their value, features, methods, and apps related to planning instruction and assessing student learning. It identifies favorite apps whose affordances are most likely to foster certain disciplinary literacies, includes resources, and apps for professional development.
