

Attributed Perspectives

Architecture Without Content started as a study of the big box. It ends as an exercise in form and classicism. The twelve issues collected here complete the full set of 33 incarnations of *Architecture Without Content*. *Architecture Without Content* was always interested in an architecture that is reduced to its perimeter. That has not changed. *Architecture Without Content* is difficult, troubled, realistic and conscious. It always tries to figure out where the project happens.
