The Graphic Standards Guide to Architectural Finishes ARCOM, The American Institute of Architects, 2003-03-24 From ARCOM and The American Institute of Architects A complete visual guide to choosing and using finish materials In this unique guide the authors of MASTERSPEC and Architectural Graphic Standards join forces to offer architects vitalsingle source access to the unbiased information they need to evaluate select and specify the best finish materials for any job This powerful visual resource combines hundreds of illustrations from Architectural Graphic Standards with corresponding building material performance and specification information from AIA's MASTERSPEC published by

ARCOM Use this book during the schematic and design development phases of a project and as an indispensable aid for product selection and specification. Essential for architects, interior designers and building designers, this vital reference provides information to make informed decisions about specific design goals such as affordability, environmental friendliness, durability, fire resistance and esthetic success. Features include: Unique source of independent in-depth building product performance information; the one source that gives you reliable building product information before you consult with manufacturers; Covers a full range of standard finish materials and includes selection criteria, details, typical product sizes and installation and maintenance data; Provides current standards based on research by government association and independent testing organizations as well as the input of experienced architects and specifiers. Architectural Graphic Standards has served the design community for decades as a virtual bible for architectural detailing. MASTERSPEC Evaluations have long comprised one of the best resources available for building product selection and specification. Consolidating the strong points of both into this new desktop reference is an act of sheer brilliance. Martin M. Bloomenthal, FAIA, CCS, CSI, Principal, The Hillier Group, Princeton, New Jersey.

Publishing Books with ASCE American Society of Civil Engineers (ASCE), 2019. Prepared by the Publications Division of ASCE. The American Society of Civil Engineers supports a robust book publishing program to provide in-depth information on a variety of topics of interest to civil engineers and allied professionals. The books program encompasses ASCE Standards manuals of practice, conference proceedings, technical reports and the ASCE Press imprint. This guidebook provides information for authors, editors and members of ASCE's technical committees who are working on books to be published by ASCE. This document describes the types of books published by ASCE, including the review and approval process for each type, the role of the lead editor, author, publication path and submission requirements. The basics of ASCE's copyright and permissions policies are outlined. Various aspects of preparing the final manuscript are explained, including writing style, parts of a book and preparing text, tables, illustrations, math and the author-date reference system. Marketing, promotion and sales after publication are covered, as well as anti-piracy efforts, errata and publishing ethics. *Publishing Books with ASCE* is a key reference for any current or prospective author of a book to be published by ASCE.
