Aspects Of Urban Housing For Women And Men In Southern Africa:

Gender and Urban Housing in Southern Africa Anita Larsson, E. R. M. Mapetla, Ann Schlyter, 2003 A publication of the Gender Research in Urbanisation Planning Housing and Everyday Life GRUPHEL Research network aiming to play an active role and adopt a capacity building approach to meet the huge challenges of human settlement development sustainable urban housing and changes in social structures in Southern Africa The book brings together contributions from thirteen women and six men from seven Southern African and Scandinavian countries Contents housing provision and home ownership schemes amongst low income groups a gendered case study of Bulawayo exploration into changing gender roles in self help housing construction in Botswana women and housing insecurity in Malawi housing policy and institutional practice in Swaziland participation and sanitation technology from a gender perspective housing and survival strategies of Basotho urban women tenants black women building contractors in South Africa and the privatisation of public housing and the exclusion of women a case study in Lusaka Zambia *Urban Inclusivity in Southern Africa* Hangwelani H. Magidimisha-Chipungu, Lovemore Chipungu, 2021-09-28 This book's point of departure rests on the premises that dimensions of the mainstream inclusive city discourse fail to capture in detail vulnerable clusters of society being women children and the aging the minority clusters i.e. the blind the disabled and migrants In addition it fails to recognize the increase of spatial inequality driven by racial and class differences a factor that has seen an increase in community violence and protests The focus on spatial inequality has for a long time blindfolded urban authorities to ignore exclusion arising out of the same environments created with a notion of creating inclusivity Hence this book collapses spatial walls as it seeks to uncover the true perspectives of inclusivity in cities beyond spatial dimensions but within social realms The depth of this book's enquiry rests on its critical investigation of Southern African cities through historical epochs of apartheid and colonialism in the region **Gender and Urban Housing in Southern Africa** Limakatso Ranko, 2002 There is little research easily available on how gender relates to urbanisation and housing in Africa This is a compilation of documentary sources in Southern Africa and elsewhere covering subject areas such as gender and housing policy income and urban settlements environment justice and land acquisition It served as a reference tool for the GRUPHEL Gender Research on Urbanisation Planning Housing and Everyday Life project The study provides over a hundred detailed entries physical locations of documents and full contact details of the information sources Limakatso Ranko is the Documentalist at the Institute of Southern African Studies National University of Lesotho and an expert in information management and research economics *Women and Property in Urban India* Bipasha Baruah, 2010-11-07 Half the world's population now lives in cities Governments and agencies have made housing the poor a priority but few studies or initiatives focus on women's needs Based on research conducted in Ahmedabad in collaboration with the Self Employed Women's Association SEWA this book maps the constraints and opportunities that low income women throughout the Global South face in securing property which remains overwhelmingly in male hands

Their vulnerabilities open a window to assess not only land tenure and property laws but also theoretical approaches to gender and development. Although the development community holds out microcredit financing as one potential solution, these women's stories reveal its glaring limitations. By highlighting the importance of property as a material and symbolic asset in women's empowerment, this book carves out new intellectual space in the study of gender and development.

A Companion to Urban Anthropology Donald M. Nonini, 2014-03-17. A Companion to Urban Anthropology. BLACKWELL COMPANIONS TO ANTHROPOLOGY. A Companion to Urban Anthropology. The city is becoming the basic currency of human and non-human life: a pile of interconnections which makes a series of difficult wholes. This volume navigates the anthropology of this medium with the greatest aplomb. Nigel Thrift, University of Warwick. A Companion to Urban Anthropology presents original essays on central concepts in urban anthropology and ethnography. Featuring contributions from more than 25 leading international scholars in urban studies, the readings cover a wide variety of topics. Each essay explores a key phenomenon and is grounded in the author's original research along with findings of other urbanists. Classic issues such as built structures and urban planning, community markets and race lead to emergent areas of study including borders, sexualities, nature, extralegality and resilience and sustainability. A Companion to Urban Anthropology offers revealing insights into the complex forces that continue to shape the urban experience.

Cities to be Tamed? Spatial Investigations across the Urban South Beatrice De Carli, Francesco Chiodelli, Maddalena Falletti, 2014-07-08. Across the global South, the rapid urbanisation and uneven development that have occurred over the past few decades have brought to the surface a tight connection between social conflicts and urban space. Indeed, the physical conformation of urban space is one of the primary factors that trigger social tensions with repercussions at the metropolitan, regional and national scales. Such tensions are related to the conditions of social and spatial inequality which characterise many urban areas across the South; they can also be connected to contingent political and institutional orders which find in the materiality of space both the means and the cause of conflicts among different groups amidst diverging territorial demands and the overlapping of competing struggles for power. At the same time, new possibilities arise in the concreteness of space, including innovative forms of local activism, adapting strategies of self-organisation and unconventional relations between the formal and the informal city. On acknowledging the multifaceted nature of the urban space, there arises a question which constitutes the core problem addressed by the book: are cities to be tamed? This volume gathers a series of cross-disciplinary contributions on these topics, spanning from architecture and urban design to planning, social theory and geography. These contributions revolve around two core themes. The first concerns the agency of design in contexts of

informality and centres on the missing unexpected pursued exchange between projects and realities The second concerns the complex relationship between spatial planning politics and conflicts in contexts characterised by marked ethnic political and social tensions Contributors Alessandro Balducci Scott A Bollens Jeffrey Chan Kok Hui Francesco Chiodelli Laure Crique Viviana d Auria Beatrice De Carli Bruno De Meulder Annalies De Nijs Maddalena Falletti Nabeel Hamdi Joud M I Khasawneh Hamed Khosravi Olivier Legrand Colin Marx Carmen Mendoza Arroyo Lina Scavuzzo Erez Tzfadia Ignacio Castillo Ulloa Faith Wong and Oren Yiftachel *The African Book Publishing Record* ,2008 **Women in South African History** Nomboniso Gasa,2007 Accompanying CD ROM contains the complete text of the printed volume *International Perspectives on Homelessness* Valerie Polakow,Cindy Guilleaen,2001-08-30 Homelessness strikes in all types of nations from wealthy western nations to poor undeveloped countries Each government and culture attends to this worldwide problem differently This work collects eleven case studies of selected countries from around the world in order to offer a wide perspective on the dilemma of homelessness Students can use this ready reference to compare and contrast homelessness populations analyze the ways in which various countries approach this issue and to evaluate what is precluding and encouraging this reaching issue The problem of homelessness is clearly defined here from a global perspective In addition the history and resulting conflicts that have risen from homelessness are outlined This ready reference analyzes the metamorphosis of the homelessness what solutions have been suggested and how effective these solutions have been Students will learn to think critically about homelessness and what the future holds for each country as it battles with this seemingly unavoidable occurrence
